SUCCESS never comes with excuses, it comes with DETERMINATION. -Salgha Shaikh

The pandemic has changed everything around us. Our living style, thinking styles even our working style. The COVID-19 pandemic forced schools to close their doors, impacting an unprecedented number of learners worldwide. But we can't ignore both the sides of the coin as this pandemic taught us many lessons.

In years to come, when our students tell others about their schooling during the COVID-19 pandemic, what did we want them to remember about our teaching methods?

This was the biggest question in front of us because not all the teachers were trained in operating new technology so how could we normalize the things for them.

But we wanted them to remember that they had a school and teachers who cared about what they were going through, who engaged them in various activities and helped them maintain some sense of normalcy while the rest of the world was falling apart.

We learnt, we fell, we rose and we shone. Our team has proved that SUCCESS always comes with DETERMINATION. We need to take a hard look at where we are in education right now and I am very proud to say that we have tried everything that was in the best interest of our kids. We used technology wisely.

Resulted parents expressed a greater appreciation for technology in school and it's used by teachers.

Incessant devotion and dedication has the power to change the circumstances. – Salgha Shaikh

# THE REAL GLADIATOR

**“I don’t want to be a thought of as a ‘girl who was shot by Taliban’ but a ‘girl who fought for education’. This is the cause to which I want to devote my life.” - Malala Yousafzai**

**Malala Yousafzai is the youngest recipient of Nobel Peace Prize which she won in 2014; couple of years after the entire world was shocked at the story of a 15 year old girl being shot at gunpoint by Talibani militants.**

**When Taliban took control over some part of Mingora district and said that girls won’t be allowed to go in school, Yousafzai started speaking for education rights of girls. “How dare the Taliban take away my right of education?” she asked her audience in a speech widely published in newspapers. Taliban challenged her public opposition to their ideologies and warned her multiple times and even published death threats against her in newspapers. In the summer of 2012, a Talibani gunman shot Yousafzai as she rode home on a bus after taking an exam in Pakistan’s Swat Valley. After a fierce battle for her life in a hospital in UK, she eventually survived.**

**Malala has been a proponent of education for girls before and after the incidence. Before the incidence she was a BBC blogger and used to write articles in Urdu language. Also she protested against banning of girl schools. After the incidence she chose not to retreat into anonymity, but continue her activism for girls’ education. Even today she is actively involved in several initiatives promoting education and several other societal issues.**

**She has been recipient of many awards like National Youth Peace in 2011, Mother Teresa Award and Time Magazine person of the year in 2012, and International Campaigner of the Year award in 2013 and many more. On 12<sup>th</sup> of July we celebrate Malala Day to honour women and children’s rights around the world.**

**There is a lot to be inspired from Malala. However, I would like to stress on some of the lessons which I believe are the most important ones; these are to SPEAK UP [we realise the importance of our voices only when we are silenced], BE BRAVE [there’s a moment when you have to choose whether to be silent or to stand up], BE DETERMINED [be committed and stubborn for what you want to achieve].**

# AVIATION

“When you have tasted a flight you will forever walk on earth with your eyes turned skyward”. This all started on the morning of 17 December, 1903. It was the day when the world's first solo flight took off. The world's first flying machine, which was later named as aircraft, was invented by the Wright brothers. It was just a 12-second flight.

This invention started an industry which was later named as aviation. Aviation helped us in many ways such as saving a lot of time for people. Before the invention of the airplane, it required nearly about 50 days to go to the USA from India. Now, due to the invention of new technologies in aviation, one can go to the USA in 24 hours. It also gave us fighter aircrafts which resulted in many bombings such as Hiroshima and Nagasaki.

Some of the very first models of airplanes were Ader, Eliehammer biplane, Langley, Dorand 1910 Biplane, Wright flyer I, Wright flyer II, Wright flyer III, Wright 1903 Glider. Then one of the fastest airplanes at that time was Deperdussion 1913 Monocoque Racer. It was used by defense. Then came Bristol F.2B Fighter. It was also a fighter plane used in World War II. Lockheed Model 10 Electra was one of the best planes in the 1930s. It was having a capacity of 10 passengers and 2 pilots. New types of narrow body aircrafts were built during the interwar years by the US Navy. Boeing B-50 D was built in the earlier 70s; it was a nuclear aircraft used by defense. Boeing 377 Starliner was a commercial aircraft with a capacity of 112 passengers. Boeing 747 was a double-decker aircraft which was launched in 1970. It is also called the queen of the skies. Currently, the biggest commercial aircraft is the A380, which has a seating capacity of 800.

Aircrafts found their first practical use as instruments in World War I (1914-1918). Before the war, aircrafts were manufactured in hundreds; during the war and after the war, they were manufactured in thousands. The war saw different roles that aircrafts can perform. Before it was considered that the nation whose navy is strong will rule the world, but after the war, it was indirectly declared that the nation with the strongest air force will be the strongest nation.

# How to be perfect in spellings

Language is the mirror which expresses our thoughts, our mentality and our culture. English is an international language which is spoken and written all over the world. It is not our mother tongue, it is a foreign language for us. But as it is an international language, everyone must learn to read, write and talk perfectly in English. If we think deeply about English, people especially children can communicate fluently but can't write properly because of spellings. Now-a-days, this is a very common problem in children that they are very much weak in spellings.

The spelling difficulties are commonly associated with poor reading and writing. In today's modern era, children are getting everything readymade on mobile, internet etc. So they are not giving much importance to reading and writing. If they will regularly read, then there will be no need to learn spellings by heart. If they will go through more and more words, they will automatically remember spellings. Whatever they have read, they should try to write in notebook. This will give them practice of writing words correctly without any mistake.

**"Today's reader is tomorrow's leader."**

If the last but one letter is a vowel, then double the last letter while adding suffix 'ing' (stop – stopping).

If they know all these basic fundamental rules very well, then it will be easy for them to keep in mind all the spellings. But there are some exceptions to the rules like –

While writing 'trying', we don't have to skip 'y' but while writing 'tries' we have to skip 'y'.

If children study thoroughly and carefully, they can keep in mind all rules and exceptions and can overcome these spelling mistakes easily.

Another thing where children do mistakes commonly is with silent letters. While reading and writing, children must concentrate on which letter is silent in the word like 'l' is silent in (could – talk – chalk) and 'd' is silent in (knowledge) etc. Many times we have to pronounce 'r' silently like in (teacher – alarm – waiter) etc. If children can spell the word correctly then there is improvement in their pronunciation also and if they pronounce the correctly they can easily tell the spelling.

Children can remember the spelling by differentiating them according to their rhyming sounds like (caught – fought – taught), (bubble – trouble – dribble) etc. They can also remember the words with prefixes (reunion – reform – recollect) and suffixes (motion – portion – junction). Here again there are some exceptions. Students have to read it carefully.

Common mistakes in spellings are due to confusion in vowel ‘a’ and ‘e’ as like in (calendar – perfect – purple). They are always confused whether to use ‘a’ or ‘e’ in these words. Children should make a list of words in which they commonly get confused or they misspell and they should learn those words by heart.

For making children perfect in spellings, parents and teachers also play a very important role. They should encourage children to read different materials. They should make available different activity books, books with attractive pictures, books with information about new technology etc. to children.

**“What we learn with pleasure, we never forget.”**

So parents should see to it that children feel pleasure in reading and writing words. Parents should encourage children to participate in spelling based competitive exams like Spell Bee, Spell Christ, Spellathon which will help to develop their interest in spellings.

I hope all these easy tricks of remembering spellings will help children to get rid-off spelling mistakes.

**“Be perfect in reading and writing**

**Interact confidently and fluently**

**And make the world yours.”**

**Thanks for giving me chance to express my views here.**

# Life in Spaceship

Let's imagine that we know after 20 years there's a calamity, like an asteroid crash or bursting of massive yellowstone volcano which will result in end of Earth. Uno has decided that each nation will built its spaceships and accommodate the maximum people it can. Government of India has decided to built 30 spaceships. The construction work started and booking of rooms had begun. Each room can accommodate 5 people and size of each room is 10\*10. Each room has utility washrooms and two adjacent rooms have a common stove for cooking. A room is worth 10 lac. INR and a room with a window is worth 15 lakh. Eighteen years have passed and construction is over. You go to see your neighbourhood for the last time. Finally the time has arrived to board with your boarding tickets and your relatives. At boarding station there are countless counters and endless people in a queue. After 3 hours you enter in your spacecraft and have a walk around it to see what's inside. The space engineers and scientists instructs all some basic rules and guidelines to be followed in the ship. All the males between 15 to 40 years have to do 5 minute gym cycling so that the kinetic energy produced is used to electrify the ship besides the reactor is used to drive the ship. The secreted waste is used as a manure to grow vegetables in artificial farm. The water to drink is obtained by drilling any planet by which the ship passes by. Now you might be wondering how to treat patients so many rooms in a ship are hospital. For kids there is open play ground and teaching rooms are also separate. As the Ship fly off the Earth, you see your house for the last time, you are a bit sad but also happy to have a spaceship as your temporary home until a new planet is found like earth. But life is going to be interesting Isn't.

## कोरोना पर भारी पडी भारतीय जीवन शैली

पूरा विश्व आज कोरोना के भीषण संकट से त्राही त्राही कर रहा है, जिसका मूल कारण है, इंसानो व्दारा अपने स्वार्थ के लिये प्रकृति से छेडछाड . ये प्रकृति से छेडछाड पर मानव जाती को मिल रही सजा है. कोरोना के छोटे से वायरस ने आज पूरी दुनिया में आतंक मचा दिया है, बडे - बडे देश जो खुद को बहुत शक्तीशाली समझते थे, वो भी आज कोरोना के आगे झुक गये हैं। ऐसे में भारत एकमात्र ऐसा देश है जहाँ के लोगोंपर कोरोना का प्रभाव सबसे कम हुवा है. इसका एकमेव कारण है भारत की संस्कृतीसे जुडी जीवन पद्धती.

लोग युद्ध की तैयारी के लिये बडे - बडे मिसाइल बना रहे थे पर उन्हें क्या पता था की एक छोटा सा वायरस ही उन हजारों मिसाइलों को पीछे छोड देगा। इंसानों को इससे एक बात की सीख लेनी चाहीए, जो कबीरदासजी ने अपने दोहो के माध्यम से कही है -

\*तिनका कबहुँ ना निन्दिये, जो पाँवन तर होय,\*

\*कबहुँ उडी आँखिन पडे, तो पीर घनेरी होय।\*

आजकल इंसान स्वयंको सबसे शक्तीशाली समझता है, उसे जो पशुपक्षी अच्छे नहीं लगे उन्हें वह मार देता है, फिर चाहे वो एक छोटासा काँकरोच हो या हाथी। इंसान को एक बात समझनी चाहीए कि पृथ्वी हा निर्माण भगवान ने ही किया है, इंसान का कोई अधिकार नहीं बनता उन्हें मारने का। इंसानों के डर से ना तो कोई चिडीया आजादी से खुले आसमान में उड पाती थी और ना ही कोई मछली पानी मै तैर पाती थी परंतु जबसे कोरोना आया है, लोग मरने के डरने से अपने घरों में कैद हो गये और सारे प्राणी आजादी से घूमने लगे. बात सिर्फ पशु - पक्षियों पर होने वाले अत्याचारों की नहीं है, जिस धरती पर इंसान ने जन्म लिया है, उसी धरती को अब इंसान नष्ट करने पर तुला है, जंगल काटना, आग लगाना, प्लास्टिक का उपयोग करना, अपने वाहनों, एसी, प्रिंअज से घातक प्रदूषण फैलाना, ये सब जो हो रहा है उससे धरती एंव प्रकृति पर ही घोर संकट आ गया है। कोरोना के इस संकट का भारत पर जो प्रभाव कम है उसका मूल कारण है इस देश की संस्कृति. इसीके कारण लोगों की रोग प्रतिरोधक क्षमता काफी अच्छी है, वरना अमेरिका और इटली जैसे देश जहाँ मेडिकल सुविधा भारत से अच्छी है, और तो और वहाँ की आबादी भी भारत से कम है, वहाँ हजारों लोगों की मौत हो गई है और लाखों लोग संक्रमित हो गए है। भारतीयों का सुबह-सुबह गरम पानी पीना, चाय में तुलसी, अदरक डालना, हल्दी का दूध पीना और गरम मसालों का प्रयोग करने से भारतीयो पर इस प्रभाव कम हुआ। कोरोना के इस संकट में इंसानो को चाहिये की अब प्रकृति पर अत्याचार ना करे, भारतीय भोजन पद्धती अपनायें. जंक फूडसे दूर रहें. ऊर्जा देनेवाला भोजन करें. नियमित व्यायाम करें. सिगरेट, तम्बावू, शराब जैसी बुरी आदतोंसे बचें.

चिकित्सको, रक्षको, गरीबो की सहायता करे और अपना सामाजिक दायित्व निभाये।  
अथर्व बसंतकुमार भट्ट, कक्षा अष्टम् .

# TEACHERS' CORNER

I love the challenges that come in my way.  
It helps me to be strong and choose my way.

I broke ,I smile,I bruised I heal.  
I prayed, I begged ,I bowed & knealed.

I knew my God will listen me.  
And help me to heal & vision on me.

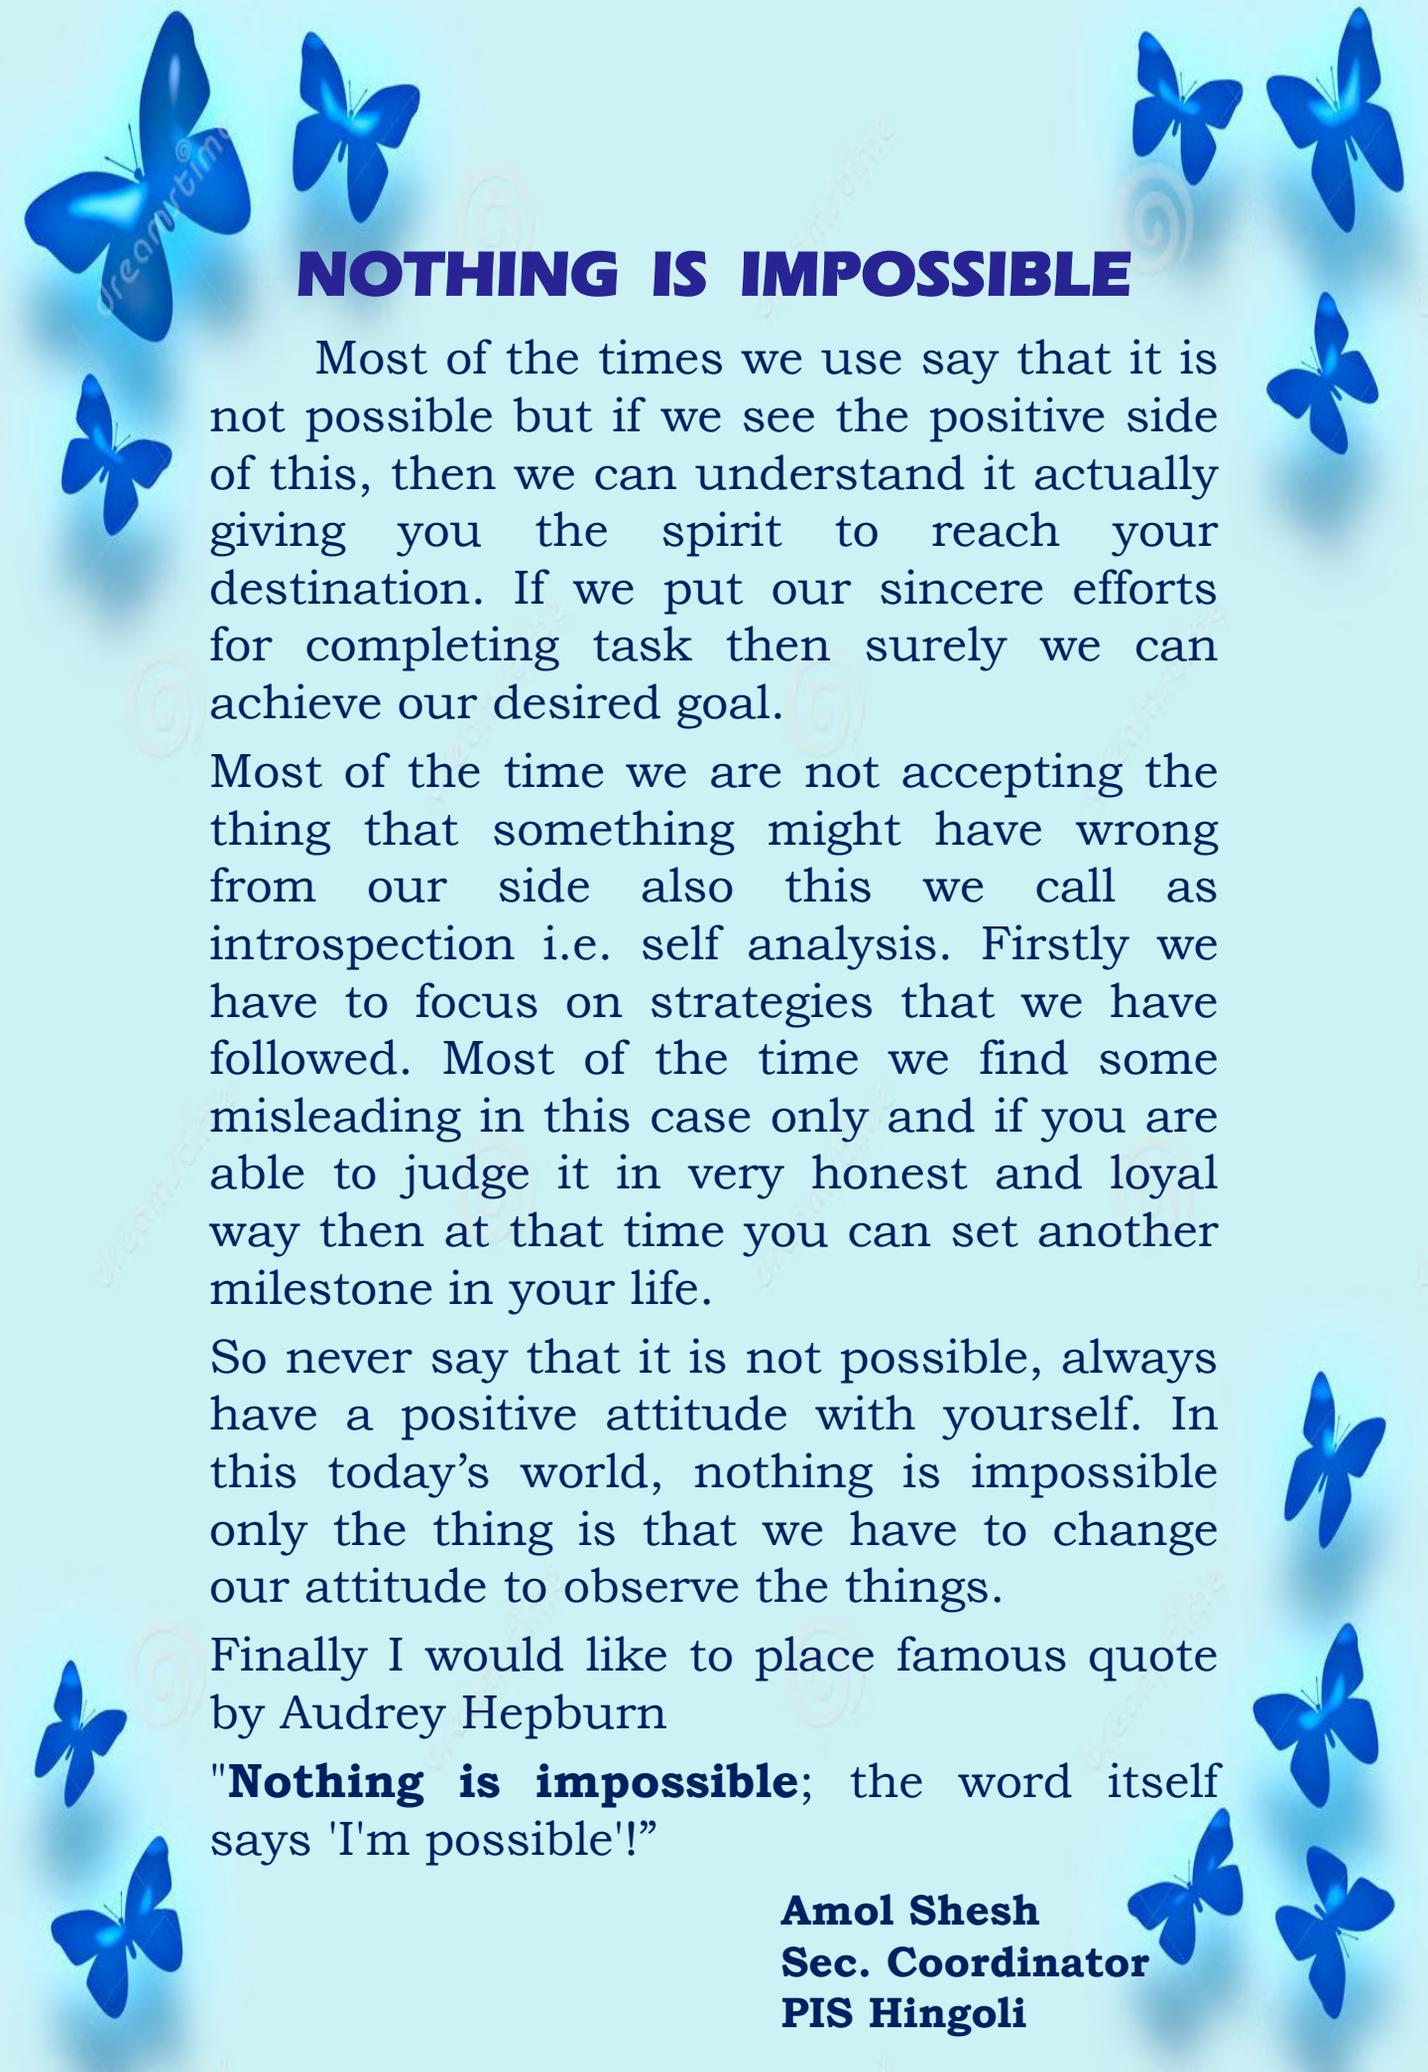

Along with it my passion has worked.  
And I became the most valued & worth.

I thank the challenges that I faced  
I grow ,I smile ,I heal,progressed.

Now the journey has begun with zeal.  
Everything that will come in way will get heal.

The page is decorated with several blue butterflies of various sizes, scattered around the text. Some are in the corners, while others are placed along the left and right margins. The background is a light, pale blue with faint, repeating patterns of the word 'dream' and 'impossible' in a light blue font.

## NOTHING IS IMPOSSIBLE

Most of the times we use say that it is not possible but if we see the positive side of this, then we can understand it actually giving you the spirit to reach your destination. If we put our sincere efforts for completing task then surely we can achieve our desired goal.

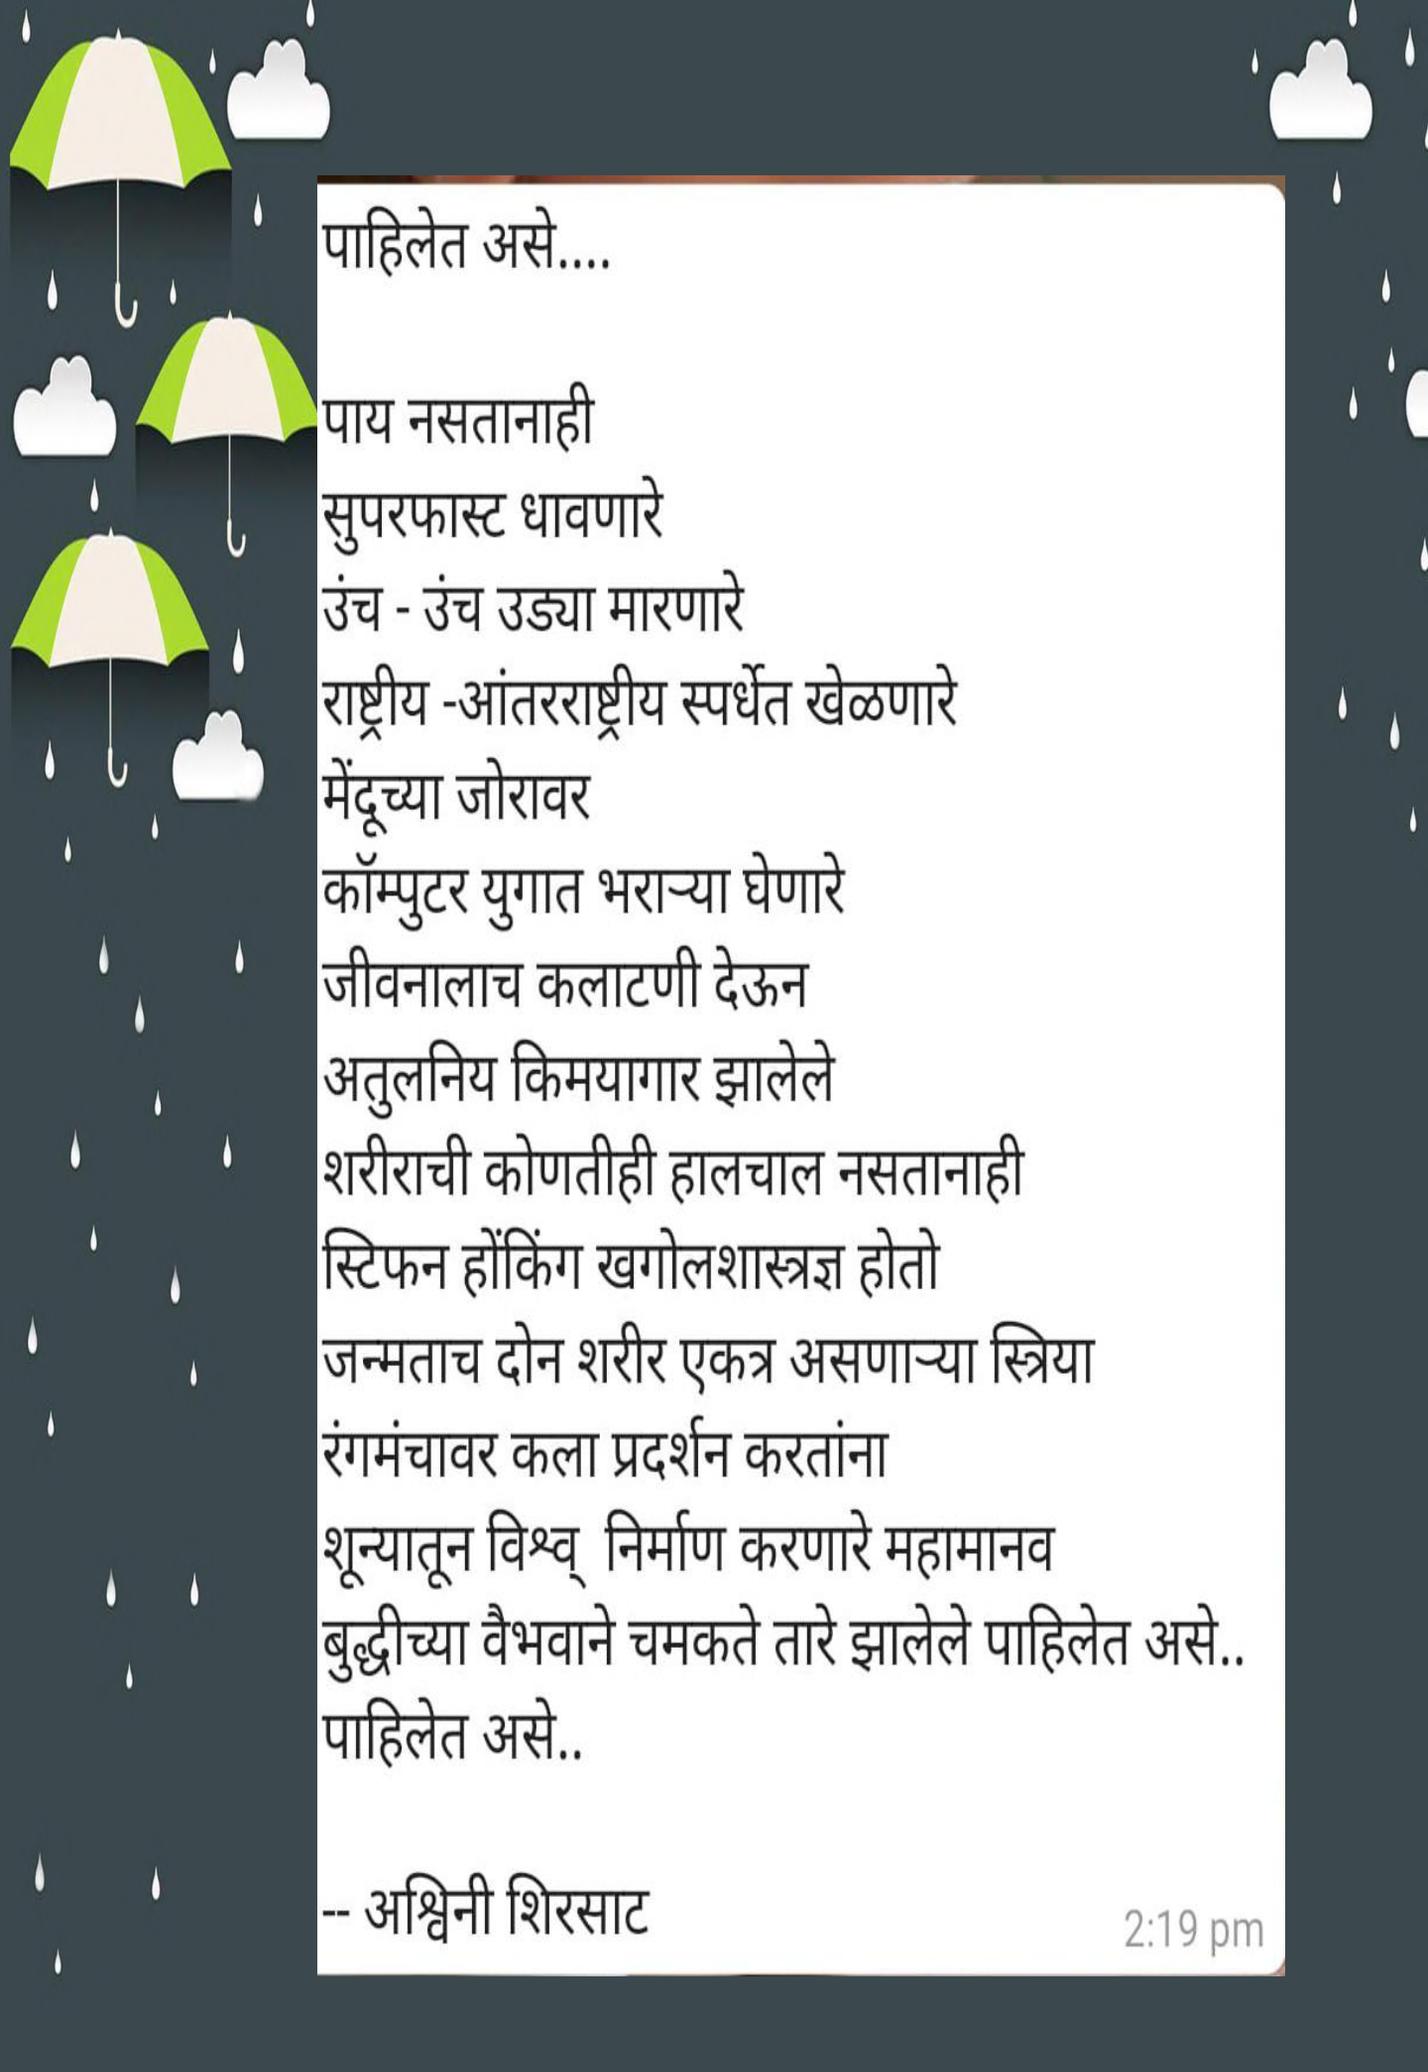

Most of the time we are not accepting the thing that something might have wrong from our side also this we call as introspection i.e. self analysis. Firstly we have to focus on strategies that we have followed. Most of the time we find some misleading in this case only and if you are able to judge it in very honest and loyal way then at that time you can set another milestone in your life.

So never say that it is not possible, always have a positive attitude with yourself. In this today's world, nothing is impossible only the thing is that we have to change our attitude to observe the things.

Finally I would like to place famous quote by Audrey Hepburn

**"Nothing is impossible;** the word itself says 'I'm possible!'"

## **News Letter- 20-2021**

In some ways, learning to program a computer is similar to learning a new language. It requires learning new symbols and terms, which must be organized correctly to instruct the computer what to do. The computer code must also be clear enough that other programmers can read and understand it.

In spite of those similarities, it activates a distributed network called the multiple demand networks, which is also recruited for complex cognitive tasks such as solving math problems or crossword puzzles.

“Understanding computer code seems to be its own thing”.

As likely we know that C programming language is a computer programming language that was developed to do system programming for the operating system UNIX and is an imperative programming language. It's also mainly known as mother language of programming.

Computer programming languages allow us to give instructions to a computer in a language the computer understands. Just as many human-based languages exist, there are an array of computer programming languages that programmers can use to communicate with a computer. The portion of the language that a computer can understand is called a “binary.” Translating programming language into binary is known as “compiling.” Each language, from C Language to Python, has its own distinct features, though many times there are commonalities between programming languages.

These languages allow computers to quickly and efficiently process large and complex swaths of information. For example, if a person is given a list of randomized numbers ranging from one to ten thousand and is asked to place them in ascending order, chances are that it will take a sizable amount of time and include some errors. There are dozens of programming languages used in the industry today. We've compiled overviews of the 12 most important, relevant and in-demand of these languages below.

Python. Java. Ruby/Ruby on Rails. HTML.Javascript. C Language. C++ C# Objective-C. PHP. SQL. Swift.

# राष्ट्र निर्माण में युवाओं का योगदान और लक्ष्यप्राप्ती

राष्ट्र विकास के लिए युवावर्ग की भूमिका महत्वपूर्ण है। किसी भी राष्ट्र के विकास के लिए वहाँ का युवावर्ग एक अहम अंग है। सशक्त युवा एक सशक्त राष्ट्र का निर्माण करता है। इन्हीं कल्याणकारी युवाओं के कार्य के द्वारा राष्ट्र का विकास होता है।

स्वामी विवेकानंद की दृष्टि से युवाओं को स्वयं के विकास के लिए उन्हें एक लक्ष निर्धारित करना आवश्यक है, जिस आधार पर वे युवा स्वयं के विकास के साथ-साथ राष्ट्र के विकास की नींव आत्मविश्वास के बल पर रख सकते हैं। स्वामी विवेकानंद की उक्ति के अनुसार **“सभी शक्ति तुम्हारे भीतर है, आप कुछ भी और सब कुछ कर सकते हैं।”** और उसी शक्ति को पहचानकर लक्ष्य प्राप्ती की ओर बढ़ना युवकों का परम कर्तव्य है।

राष्ट्र विकास के तीन महत्वपूर्ण अंग हैं – शिक्षा, रोजगार और सशक्तीकरण। अशिक्षा राष्ट्र के उत्थान में बाधाएँ लाती है, इसीलिए राष्ट्र के विकास में शिक्षा का मुद्दा अहम है। समुचे विश्व में पच्चीस प्रतिशत युवा हैं जो अपनी मस्तीष्क का सही प्रयोग करेगा तो स्वयं का विकास तथा राष्ट्र के उत्थान का द्योतक होगा। आज के आधुनिक युग में युवकों को अपना लक्ष्य रखना और उसी पर अडिग रहना उसके लिए एक बड़ी चुनौती है।

हमारे देश में युवावर्ग को सही शिक्षा प्राप्त करने के लिए अवसर निर्माण करना आवश्यक है। जिसके द्वारा उन्हें सही लक्ष्य और रोजगार प्राप्त हो सकता है। युवा सशक्तीकरण की ओर ध्यान देते हुए निर्बल, अशिक्षित तथा आत्मविश्वास से हारें हुए युवाओं में नव जागृती निर्माण करना आवश्यक है। यह भी आवश्यक है कि युवाओं को उनकी रुचि और क्षमता के अनुरूप अवसर मिलेंगे तो वे युवा कभी गलत राह पर नहीं जा पाएंगे। युवाओं को अपना लक्ष्य प्राप्त करने के लिए निरंतरता से संघर्षरत रहना जरूरी है। विवेकानंद जी के विचारों के अनुसार **“जीतना बड़ा संघर्ष होगा जीत उतनी ही शानदार होगी।”** अतः यदी युवावर्ग अपनी बुद्धी का सही प्रयोग करेगा तो सही दृष्टि से वह स्वयं का तथा राष्ट्र का विकास कर सकता है।

# !!! Importance of values in life !!!

We as a human being need many things to have a good life and education to gain some wealth from the ocean of knowledge. The new generation of this era is in the race of education. This race has completely crumbled the happiness of the life of the students. There is a big question to understand why everyone is an active participant in this race. Are they behind success, knowledge, experience or something else here we need to think deeply? There is a famous quotation, "all respect is given to the success in this world; the SUCCESS is count in money, exactly in Money.

We need to think while running for success, are we getting all the things which we expect? We expect losing something. Swami Vivekanand told if you want to be successful in life you have "All power is within you. You can do anything and everything. Believe in that. Do not believe that you are weak; do not believe that you are half-crazy lunatics, as most of us do nowadays. Stand up and express the divinity within you. While running behind the success and money, we are missing the most valuable thing in our life nothing but values in this materialistic world Day by day the young generation is achieving new heights in different fields but are they achieving high values? Are their children getting the love from elders to form the family?

Nowadays we are not able to spend quality time with their families which adversely affect the family. The nuclear family structure is prevailing in society which is somewhere responsible for deploying values. Now there is a time to think, do we concentrating on teaching the values than becoming rich in our life. Are we teaching the importance of elders in life? Are we teaching our kids to respect every person not based on money but values? If we teach values, the least amount of money will give you the most happiness. So as a human being, we have to value, respect, spared happiness and values in this world to make it more beautiful.

As per my opinion, the world will be the most beautiful if we give importance to education for gaining values than money. It is real happiness of life.

# कोरोना आणि सहानुभव

आता पुरते एक वर्ष होत आले.आपण सारे कोरोनासह जगत आहोत. जेव्हा कोरोना नुकताच आलेला होता,तेव्हा वाटायचं की या नव्या विषाणूच्या या वैश्विक साथीला कसं सामोरे जायचं.मात्र काळाच्या ओघात आपण त्याच्यासह जगायला लागलो.ते गरजेचं होतं म्हणून तसं जगणं शिकलो.आता कोरोना आपल्या सर्वांच्या जगण्याचा एक अविभाज्य भाग बनला आहे.त्याचं अस्तित्व आपण नाकारू शकत नाही.

गेल्या वर्षी कोरोना हा विषाणू आणि कोविड १९ हा आजार काय भानगड असते,हेही आपल्या ध्यानात नव्हतं.मात्र तो आला.त्याचा आणि आपला परिचय उत्तरोत्तर वाढत गेला.आधी कोरोनाचं नाव ही न ऐकलेले आपापल्या परीने त्याचा ओळखीपरिचय करून घेत होते. सगळं जगणं वागणं लॉकडाऊन असल्याने छोट्या छोट्या गप्पा गोष्टीत इतरांनाही त्याची ओळख करून देत होते.अगदी आपण कसे तज्ज्ञ आहोत, हे भासवत. त्यात हा कोरोनाही लै चलाख. तो आपले रूपं एखाद्या बहुरूपी हेरासारखं बदलून या तज्ज्ञाना भुलथापा मारत होता.चकवत होता.स्वतःमध्ये बदल करून घेत होता.म्हणजे त्याचं म्युटेशन होत होतं.ज्याने सगळीकडे कोलाहल आणि गोंधळाचं वातावरण निर्माण होत होतं. आणि अशा वातावरणात आपण सारे आपला जीव मुठीत घेऊन जगत होते. प्रत्येकाला आपल्या जीवाची काळजी होती.ती आताही आहे.मात्र याचा अर्थ असा नव्हे की लोकांनी आपल्यातला सहानुभूतीचं आणि सहानुभावाचं वागणं सोडलं नव्हतं.आपलं समूह म्हणुन अस्तित्व हरवून जाऊ नये,म्हणून आपण सामूहिक प्रयत्न करत होतो.

कोरोना आला आणि त्याने जगण्यावर आघात केले.कित्येकांचं जगणं उघड्यावर आणलं. हे जितकं खरंय तितकंच हेही खरंय की कोरोनाने आपले समूह म्हणुन किंवा संस्कृति म्हणून आपले गुण दोष उघड्यावर आणले.त्यांच्यावर प्रकाशझोत टाकला. आपण कसे या निसर्गाकडून दूर चाललोय,हेही अधोरेखित केलं. अनेकांनी यावर भाष्य केलं.कोरोनाबद्दलची काटेकोर माहिती लोकांना मिळाली.कोरोना नंतर जगाची फाळणी किंवा आपल्या इतिहासाची फाळणी कोरोना आधीचे जग आणि नंतरचे जग होईल.अशी मांडली.मात्र कोरोनाने आपलं जगणं वागणं कसं redefined केलं,याचे अनेक उदाहरणं आपल्या माहीत आहे. जसं की कितीतरी स्थलांतरित कामगार कसे रस्त्यांवर आले, कितीतरी कारखाने, कंपनी बंद झाल्याने कितीतरी कुटुंब दारिद्र्याच्या गर्तेत ढकलले गेले, कसे शिक्षणाच्या ऑनलाईन माध्यमांना सहज access नसल्याने कसे ग्रामीण भागातील विद्यार्थ्यांचे नुकसान झाले, अशे एक ना अनेक प्रश्न उदाहरणं म्हणून सांगता येईल. या कोरोना काळाचे तसे अनेक प्रकारे चित्रण म्हणजे documentation झाले आहेत. त्याचे बरे वाईट पडसाद आपल्या साहित्य,संस्कृती, कला, क्रीडा, शिक्षण, विज्ञान या सारख्या कैक महत्त्वाच्या क्षेत्रावर दिसून येतात किंवा तसे काळाच्या ओघात हे दृश्यमान होईल.मात्र याचवेळी आपल्या कित्येक तथाकथित भव्य दिव्य आणि उदात्त संकल्पनांना कोरोनाने जब्बर धक्के दिले आणि त्यांचे सांधे खिळखिळे झाले आहेत.

जगाच्या इतिहासात ज्या प्रमाणे अशा कैक रोगांच्या साथी येऊन गेल्या असतील.भविष्यातही त्यांच्या शक्यता नाकारता येत नाही. नवे नवे जिवाणू विषाणू येणार. सोबत नवे नवे रोगही घेऊन येणार.मात्र अशा येणाऱ्या काळात आपण मानवी समूह आणि संस्कृति म्हणून आपलं अस्तित्व कसं कायम राखतो, हे पाहणं महत्त्वाचं. त्याही पलीकडे या संघर्षाच्या काळात आपण आपल्याच लोकांसाठी आणि इथे नांदणाऱ्या बारीक सारीक जीव जंतूंप्रति आपली सहानुभूती आणि सहानुभव कसा जिवंत ठेवणार हेही पाहणे महत्त्वाचे.

जन्माला आल्यापासून ते मरेपर्यंतचा जो प्रवास असतो, त्यास आपण जीवन म्हणतो. हा प्रवास करतांना अनेक इच्छा, आवेशां, आशा, आशाही बाळगाव्या लागतात, विविध संकटांना सामोरे जावं लागतं तेव्हा कुठं आपणाला यशाच्या पाऊलपुढे स्थिततात. शेवटी यशाशीय्यरूपीत पोहचतो. मात्र हे यशस्वीपणे करव्यासाठी तुमच्या मातयाकडे प्रबळ इच्छाशक्ती, जिद्द असावी लागते. तेव्हाच कुठं तुमचे स्वप्न साध्य होते.

बाब आहे, ती म्हणजे स्वप्नपूर्तीसाठी निवडलेला मार्ग. यापेक्षाही एक महत्त्वाची हुल्लीने काश्चित महत्त्वाची नसेलही; पण यथा संस्ताराने ध्याय्या असले तर नक्कीच मार्ग महत्त्वाचा वाटतो. हा मार्ग चालत असताना प्रामाणिकता, मेहनतीवृत्ती, मागे स्वाभिमान ह्या गोष्टी मानवाच्या मनां जिवंत असाव्या लागतात, तेव्हाच कुठे यशप्राप्तीचा यथा आनंद साजरा करता येतो. अशावेळीच स्वभावस्वभावाची जाणीव होते.

हुल्लीची परिस्थिती तुम्ही-माझी बघितली आहे. म्हणजे प्रामाणिकता, मेहनतीवृत्ती, स्वाभिमान ह्या गोष्टी कुठे तरी गहाण पडले गेले दिसत आहेत. मार्गाचा स्वार्थ मागून मागे होण्यासाठी प्यारं बोलण्याची थोडी शक्त बाळगत नाही. त्याचबरोबर नैतिकता सोडून जे कामचकारपणा, चमचेगिरी, लाचारी वृत्ती यांज्जे अधिक केरीत शाले आहेत.

## काटेरी जीवन

कळी फुलते तेव्हा आनंद सगळ्यांना।

पण मग नंतर सुरवात होते तीच्या काटेरी जीवनाला।

सुंदर, कोमल, पवित्र फुलाच्या वाटेलच

का हो येते काटेरी जीवन।

का हो सुरू होते ते काटेरी जीवन।

देवाला देखील आवडते कोमल फुल

पण ते ही देखील असते काटेरी जीवनात।

काय बिघडवल त्या कोमल फुलाने तुमचे

त्याला आपण का उगीचच चूरगळू टाकतो।

त्याचे जीवन काटेरी असले तरी

कोणतीही अपेक्षा नठेवता सुगंध पसरवतो.

स्वतःचे जीवन दुसऱ्यांना समर्पित करतो

मग त्याचच वाटेला का हो येते काटेरी जीवन।

आपण कधी त्या फुला विचार केला आहे का हो।

मग त्यानेच जगायचे का हो काटेरी जीवन।

# My Experience in Pandemics

I am shearing experience in pandemics days that will be shearing with you. From the Nature Coast to the Space Coast, we've all seen our lives touched in some way, shape, or form by the corona virus pandemic. Perhaps the most profound change is the near-constant encouragement to stay at least six feet away from every other person around us. "Social distance." Two words that have brought about seismic change to the daily lives of millions around the world. It's meant schools have to close, businesses that rely on crowds and contact have to shutter, and events that bring people together have to be canceled or postponed.

In this new world, where we're all now more or less bound to our homes, Most people share a love-hate relationship with their family. For most Indian families, the concept of personal space is alien. So even if they are nodding feverishly while watching prime time news cautioning against the dangers of a virus, the very idea of practicing 'social distancing' inside the house, within the members of the family, is heretical to them. For this very reason, many people who are in quarantine with their family members are beginning to feel a tad peeved with the whole arrangement. Rather they were with friends, or by themselves, as opposed to the continual presence of a parent, a sibling, an aunt, or a grandparent.

I understand the lockdown was important to contain the pandemic, but I just wish I had more time to plan my travel and reach home, "On a particularly difficult day, when news screens flash an increase in the number of cases, there is a lot of stress and fear. It is during these times that you wish you were with family, so you could ease the stress".

# The Power of Prayer

Things which are ordinarily considered as impossible are said to become possible through the power of prayer. The ability of prayer to work miracles is regarded as preeminent in all forms of religious approach. The importance that has been given to this aspect of religious exercise in the scriptures as well as by the great masters of yore has not been properly recognized and appreciated by the workaday mind of the common man, due to different types of distraction and problems.

The power of prayer is incalculable, and its efficacy has been sung in glorious terms even by poets, what to speak of yogis, masters and prophets. But how does prayer work? Man is a doubting creature, and a little time that the power of prayer takes to work may upset the faith of even the prayerful. There is an inveterate habit of the human mind to expect immediate results. It is not that immediate results cannot follow; they also are possible. Immediate consequences can be the result, no doubt, but of intense effort. The quantum and the quality of the effort that is at the back of the performer of this exercise decides the time that it takes to manifest itself in action, call it the fructification thereof, of the working of a miracle or the appearance of a wonder.

But what is prayer? Everyone prays. We hear that in all temples, in holy places, in churches and mosques, in sacred places of pilgrimage, prayers are offered. Sacred formulae are chanted, mantras are recited, gospels are read, and we bow our heads before a holy of holies; it may be in the form of a sacred text or in the vicinity of a place of worship. This much is visible everywhere in ardent religious circles. We do offer prayer.

But prayer is not a dead force. It is a living operation, and hence any attention that is paid in the direction of the offering of prayers dissociated from the consciousness of prayer may deleteriously tell upon it, and its efficacy to that extent would be diminished. Prayer is the movement of a living, vitalizing, seeing eye. It is not a blind, automaton energy that moves like a bulldozer lumbering on the street. Not so is the way of prayer. Prayer has eyes to see.

जगण्याला या अर्थ मराठी

या सुंदर ओळी वाचण्यात आल्या व लगेच मनामध्ये मराठी भाषेबद्दल  
अनेक विचार तरळून गेले.

मराठी भाषा ही एक सुंदर भाषा आहे जी मुख्यता महाराष्ट्रात बोलली जाते.  
मराठी ही २२ अधिकृत

भाषांपैकी एक आहे. मराठी भाषा २००० वर्षांपासून अस्तित्वात आहे.  
आपण मराठी भाषा दिवस २७ फेब्रुवारीला साजरा करतो. त्या दिवशी  
आपले लाडके साहित्यकार कुसुमाग्रजांचा वाढदिवस असतो.जसजसा  
मराठी साम्राज्याचा विस्तार झाला तसा मराठीचाही विस्तार झाला.पण  
आज आपल्या भाषेची अवस्था बघितली तर

केवळ प्रश्नचिन्ह समोर उभे राहते.पण याचे उत्तरही आपल्यालाच शोधायचे  
आहे.

बदलत्या काळानुसार आपण फक्त एकच भाषा आत्मसात न  
करता अनेक भाषा आत्मसात करायल्या हव्या. हिन्दी ,इंग्रजी सुद्धा शिकले  
पाहिजे.आपणही काळानुसार बदलले पाहिजे पण याचा अर्थ असा नाही  
की

आपण आपली भाषा, संस्कृती विसरली पाहिजे. आपल्याला आपल्या  
भाषेला आदर मिळवून द्यायचा असेल तर

आपण दुसऱ्या भाषेचा सुद्धा आदर केला पाहिजे.

Inclusion is defined as the state of being included or being made a part of something. Inclusion means that all people, regardless of their abilities, disabilities, health care needs, have the right to be respected and appreciated as valuable members of their communities.

An inclusive classroom is a general education classroom where students with and without learning differences learn together by respecting each other differences. Inclusive classrooms are welcoming and support the diverse academic, social, emotional, and communication needs of all the students. Inclusive classroom plays a very vital role because in the inclusive classrooms all children are able to be part of one community and develop a sense of belonging and become better prepared for life in the community as children and adults. It also provides better opportunities for learning to everyone.

Inclusive learning recognises all student's entitlement to a learning experience that respects the ability, enables their participation, removes barriers in the learning process and anticipates and considers a variety of learning needs and preferences.

Inclusion is not simply about physical proximity; it is about intentionally planning for the success of all students, it is when every child is given an equal opportunity and treatment to participate in various classroom as well as outside the classroom events by acceptance, giving support and recognition and everyone have access to the same opportunities to learn, play and live. One very important aspect we all must understand that, when children entered the classroom, they are not a student firstly, they all are Learner, and each child learning should be the first priority in every school.

When inclusion is done well, everyone in the class get benefits.

# Story Behind 100!

**'Yesterday is Reminder**

**Today is Start up**

**Future is where dreams comes true'**

In my complete journey of 11 years of teaching Math to Grade 10 ( CBSE ), I have just plan and worked on it for giving good result but the feeling of 100 marks is completely different.

Class 10 Batch of 2019-2020 has given me a feeling of superb results with one of my students Vedant Gore got 100 marks in My subject. Whatever I executed under the guidance of Respected Principal Sanjeev Bhardwaj Sir.

Scoring a perfect 100 might not be that easy, but it is not impossible. Surely, one cannot score this enticing score by studying overnight or a day before the exam. There has to be a full proof strategy and plan, which can only be built throughout the year to score a perfect 100 or even above 90.

Possible always say ' I am possible'

Impossible always say" I'm possible"

I have completed math syllabus in the month of October, then I have started 3R concepts through different ways.

**Revising Textbook and Reference books**

**Revising through Sample paper**

**Revising through Subject camp discussion.**

According to me, in my experience, you don't need any if you go once through with NCERT, be confident, believe in yourself, don't be afraid of self-assessment and asking questions, follow the instructions given by your teachers, parents and mentors

Failure is stepping stone of Success.....

असफलता एक चुनौती है, इसे स्वीकार करो,  
क्या कमी रह गई, देखो और सुधार करो।  
जब तक न सफल हो, नींद-चैन को त्यागो तुम,  
संघर्षों का मैदान छोड़ कर मत भागो तुम।  
कुछ किये बिना ही जय जय कार नहीं होती,  
कोशिश करने वालों की हार नहीं होती। .... सोहन लाल द्विवेदी

When we read the stanza of a poem, most probable question may arise in our mind. Are we ready to take the other step to complete it? Do we work consistently for? Are we passionate about?

And the answer for this is ...No

Why does it so ? ..... Because of the mind set.

Once we fail we simply get depress and divert from the path, but we have to think about the small ants, they are much consistent on their path, passionate about the goal. If they can then, why do we not?

Often we have observed that due to the small scale failure individual comes under the stress, and depression, moreover some are taking the harsh steps.

If we are in the phase of the failure we should not lose the patience, we must think about the great personalities starting From Swami vivekanand , Mahatmandhi, Dr. APJ Abdul kalam till Prime minister Narendra Modiji, Malala Yousafzai and many more. Have they got any soft corner in their life? Were they succeeding in first attempt? ..... No

So what is the key of Success..... It is totally depend on hard work.

All these great personalities work hard to achieve their desired aim. While working on the path we must set the goal, and then fix the strategies to achieve the success.

Keep the Positive attitude: keep positive attitude, as a great scientist Thomas Alva Edison had experiment 1000 times but he never said that I waste my time in the experiments 999 time but he was saying that I found 1000 different ways by which we could not make the Filament Bulb.

SET Inspirations/Role model: set the role model for your journey.

Self Belief: believe yourself don't lose the confidence.

*Hard work + positive attitude + inspiration + self belief = Success*

At the last, I wish to conclude myself by saying,

" Don't fear about the failure because failure is nothing but the first attempt in learning. Also, success comes from experiences and experiences come from failures."

"So don't stop until you reach to your destination because failure is the stepping stone of success. "

Thank you!

# विद्यार्थ्यांच्या उज्वल शैक्षणिक भविष्यासाठी पालकांचे योगदान महत्वाचे - प्राचार्य संजीवकुमार भारद्वाज

**हिंगोली/प्रतिनिधी** : विद्यार्थ्यांच्या उज्वल भविष्यासाठी पालकांचे योगदान महत्त्वपूर्ण असते, असे प्रतिपादन प्राचार्य संजीवकुमार भारद्वाज यांनी दहावीमधील विद्यार्थ्यांच्या पालकांच्या शैक्षणिक सभेत केले.  
येथील पोदार इंटरनॅशनल स्कूलमध्ये दहावीमधील विद्यार्थ्यांच्या पालकांच्या सभेचे आयोजन करण्यात आले होते. यावेळी प्राचार्य संजीवकुमार भारद्वाज यांनी कोरोना व्हायरसच्या लॉकडाऊन काळातील पालकांच्या सहकार्याबद्दल पालकांचे आभार मानून विद्यार्थ्यांच्या उज्वल शैक्षणिक भविष्यासाठी पालकांचे योगदान महत्त्वपूर्ण असते, असे त्यांनी सांगितले. दहावीचे वर्ष हे विद्यार्थ्यांच्या शैक्षणिक दृष्टीने महत्वाचे वर्ष असते.  
दहावीचे वर्ष खूप उत्साहाचे, कुतूहलाचे त्याचबरोबर त्रस्त आणि व्यस्त वेळापत्रकाचे असते. दहावीचे वर्ष हे विद्यार्थ्यांच्या आयुष्याला कलाटणी, नव्या बळगतीवर नेणारे वर्ष असते. विद्यार्थ्यांच्या उज्वल भविष्यासाठी पालकांचे योगदान महत्त्वपूर्ण असते.

पुढे बोलतांना प्राचार्य संजीवकुमार भारद्वाज म्हणाले की, विद्यार्थी जीवनात पालकांची भूमिका महत्त्वपूर्ण असते. पालकांनी विद्यार्थ्यां सोबत सहकार्य आणि सकारात्मकतेने राहावे. घरातील वातावरण प्रसन्न आणि आनंदी ठेवावे. विद्यार्थ्यांना सोबत बसून अभ्यासातील महत्त्वपूर्ण विषयावरील माहिती विचारावी. पालकांनी आपल्या मुलांचे आदर्श पालक व्हावे. मुलांसोबत नेहमी प्रेमानी आणि मैत्रासारखे राहावे. पालकांनी विद्यार्थ्यांच्या आरोग्य काळजी घ्यावी. मुलांचे म्हणणे ऐकावे, त्याला समजून घ्यावे, मुलांना संघटनात्मक कौशल्या

शिकवावेत. मुलांना यशस्वी व्यक्तीच्या जीवनकथा सांगल्यात. त्यांचे शैक्षणिक अनुभव सांगितले. मुलांनी केलेल्या चांगल्या कार्यांचे कौतुक करावे.  
विद्यार्थ्यांनी अभ्यास कसा करावा याबद्दल बोलतांना ते म्हणाले की विद्यार्थ्यांनी रोजच्या अभ्यासाचे नियोजन लेखी स्वरूपात तयार करून अभ्यासाच्या खोलीत लावावे. आजचा अभ्यास आजच पूर्ण करावा. विषयातील संकल्पना समजून घेऊन अभ्यास करावा. अभ्यास विषयातील मुद्दे लक्षात ठेवावेत. त्यासाठी मुद्देसुद लिखाण करावे आणि मुद्दे स्वतःच्या शब्दात मांडावेत. वाचन करताना महत्त्वपूर्ण असलेल्या मुद्द्यांचे टिपण लिहून काढावेत. अभ्यासातील न समजणाऱ्या संकल्पना शिक्षकांकडून समजून घ्याव्यात. विद्यार्थ्यांनी दहावीच्या वर्षात सकारात्मक आणि प्रामाणिकपणे अभ्यास करावा. पालक सभेस शाळेतील वरिष्ठ समन्वयक मुखेन्द्रराज हुंडे यांच्यासह शिक्षक अमोल शेष, संलेहा शैख , कपिल जमधारे, देवेन्द्र खरटमल आदींची उपस्थिती होती.

## पोदार मध्ये भारतीय संविधान दिवस ऑनलाईन साजरा मुंबई दहशतवादी हल्ल्यातील शहिदांना आदरांजली

**हिंगोली/प्रतिनिधी :** येथील पोदार इंटरनॅशनल स्कूल मध्ये भारतरत्न डॉ. बाबासाहेब आंबेडकर यांनी २६ नोव्हेंबर १९४९ रोजी आपल्या देशाला आदर्श संविधान प्रदान केले होते. शाळेत भारतीय संविधान दिवस ऑनलाईन पद्धतीने उत्साहात साजरा करण्यात आला. यावेळी शाळेतील शिक्षक आणि विद्यार्थ्यांनी संविधान उद्देशीकेचे वाचन करण्यात आले. तसेच या कार्यक्रमात २६/११ च्या मुंबईवर झालेल्या दहशतवादी हल्ल्यातील शहिदांना श्रद्धांजली अर्पण करण्यात आली

यावेळी शिक्षक मुकुंदराज हुबे मार्गदर्शन करताना म्हणाले की, विद्यार्थ्यांनी आपल्याला संविधानाने दिलेले हक्क आणि कर्तव्य याचे पालन करावे, भारतात अनेक जाती, धर्म, पंथ, वंश,

समुदाय, भाषा राहणीमान, प्रांत असतांनासुद्धा सर्वाना भारतीय संविधानाने एका सूत्रात बांधून सर्वाना भारतीय लोकशाही प्रणाली बहाल केली

असल्याचे त्यांनी सांगितले. तसेच यावेळी शिक्षक संतोष सुरकांबळे म्हणाले की, विद्यार्थ्यांनी संविधानाचा अभ्यास केला

पाहिजे. आपले हक्क, जबाबदाऱ्या जाणून घेतल्या पाहिजेत आणि त्या नुसार वागण्याचा प्रयत्न ही केला पाहिजे. संविधान निर्मात्यांनी अतिशय कष्टाने देश घडविण्यासाठी निर्माण केलेल्या भारतीय संविधानाचे पावित्र्य जपले पाहिजे. तसेच शाळेतील शिक्षक किरण जोगी यांनी आपल्या भाषणातून २६/११ च्या मुंबईवर झालेल्या दहशतवादी हल्ल्याबद्दल माहिती दिली. तर शाळेचे व्यवस्थापक व्यंकट रेड्डी यांनी ही मार्गदर्शन केले.

कार्यक्रमाचे सूत्रसंचालन नितिन इंगोले यांनी केले. तर कार्यक्रम यशस्वी करण्यासाठी संतोष दिपके, मुकेश डहाळे यांच्यासह शाळेतील सर्व शिक्षक आणि शिक्षकेत्तर कर्मचारी यांनी परिश्रम घेतले.

## मातृदिनाच्या ऑनलाईन सोहळ्याला उत्स्फूर्त प्रतिसाद

**हिंगोली, ता. ११ (बातमीदार) :** येथील पोदार इंटरनॅशनल स्कूलमध्ये या वर्षी प्रथमच जागतिक मातृदिन सोहळा रविवारी (ता. दहा) ऑनलाईन पद्धतीने साजरा करण्यात आला. त्याला शाळेतील विद्यार्थी आणि त्यांच्या मातांनी मोठ्या प्रमाणात प्रतिसाद दिला.

जगातील अनेक देशात मे महिन्याचा दुसरा रविवार मातृदिन म्हणून पाळला जातो. या दिवशीच नाही तर दररोज मातेच सन्मान आणि गौरव केला पाहिजे, याच धर्तीवर येथील पोदार इंटरनॅशनल स्कूलमध्ये प्रथमच ऑनलाईन पद्धतीने हा कार्यक्रम साजरा करण्यात आला. त्याला शाळेतील विद्यार्थी आणि त्यांच्या मातांनी मोठ्या प्रमाणात

प्रतिसाद दिला. या ऑनलाईन कार्यक्रमात शाळेतील विद्यार्थी आपल्या आईला विविध कामात मदत करत आहेत. त्यामध्ये आईला भांडी घासताना, रांगोळी काढताना, गाई-गुरांना चारा पाणी देताना अशा विविध कामात आपल्या आईला विद्यार्थी मदत करत आहेत. तसेच आईसोबत योगासने, व्यायाम, संगीत आणि नृत्यासह विविध कार्य विद्यार्थी करत आहेत.

*As a parent I think that the initiative taken by teachers of PIS, Hingoli is very helpful for students. The parent orientation took virtually was very helpful for us to understand how actually the virtual class will be held. Due to classes the students are engaged in study even during lockdown. Worksheets and other learning materials sent via between us portal are too useful for students. I will thank entire PIS team behind this initiative for not letting the students lack in study during this time period. The hardwork of teachers will surely give result in near future. Again I thank entire PIS team and hope they will keep the same spirit to help students.*

### feedback for virtual classes

The initiative taken by PIS hingoli of virtual classes have paved the way for the students for making the methodical use of the ample time in efficient learning. Though the lockdown have seemed like an catastrophe for the studies of the student but the online classes have been proved worthwhile. Due to which students are involving themselves in a academic activities and engrossed in learning at their own pace.

The efforts taken by all the teachers have seemed a quite triumphant. Teachers are constantly endeavoring for the absolute development in students even in this situation which is quite a splendid job. It's very overwhelming seeing the kids flourishing with their on interest in the academics due all the kind of study material and practice sheets provided by the school and the overall outcome was quite astonishing. The one thing that I find a bit mediocre was the quality of sound still I have strong feeling if conviction that the school try the best potential to overcome this problem. I hereby look forward to all the new initiative and programs that the school is planing to take.

Sir,  
 I, Mr. Venkatesh K. Damkondwar  
 father of Shaily Damkondwar learning  
 in 10<sup>th</sup> std for this awesome activity.  
 Without delay the PFS team have  
 started this activity with very good  
 communication between students & parents.  
 Initially we thought this type of  
 activity is possible only in big cities  
 but PFS Hingoli has proved that  
 they have same capability of being  
 updated with this type of newer technique.  
 Due to this lockdown (sudden  
 decision taken by government) the  
 whole Indian population have get  
 affected in all ways. But these  
 younger students they got very much  
 bored at home. But as soon as  
 this programme got started they got  
 new inspiration for the start of new  
 session. They got proper guidance and  
 now daily they are busy with their  
 online schedule and home work.

This type of virtual learning is  
 the need of hour as nobody knows

how much time this lock down will continue.

One more advantage I thought that the students get rid of routine disengagement on Corona which was very depressing & alarming.

I don't think there will be another way better than this for very useful & proper use of lock down time.

Once again congratulation & best wishes to PPS team.

We are proud to be a parent of Podar student.

Lastly stay home, protect yourself & community and help the nation to get out of this horrible Corona Pandemic.

Thanking you

### FEEDBACK

Firstly, Through Betweens us app we got one report card of our child but some problems were occurring in between us app so, we get our report card late. But, now we are getting all students resources of all subjects on time. Teachers are cooperative. Teachers are teaching very nicely in virtual classes. From 3<sup>rd</sup> of April school had started students virtual classes. First day of virtual classes we had face some problems and technical problems but afterwards we were understanding. But, some students are disturbing in middle of classes. As some of the students don't have books or e-books so we were facing some problems. Now, teachers are sharing all the information on group. All classes are very nice and we are understanding teacher's teaching. Virtual classes is really very nice idea to teach students at their home in this difficulty situation of our country. Thanks for this facilities to students.

Dear mam/sir

I am really very happy for the virtual class. A lot of thanks to teacher & also Principal sir for that virtual class, In lockdown period students are very bore, there exam are also not done that's why they are sad, so teacher make them happy from virtual class.

In virtual class teachers not only teach but also they are giving home work to study. Students get new experience due to online virtual class. Therefore virtual class is very effective. Podar gives new opportunity to student for studying. So virtual class is the best option in lockdown period for studying.

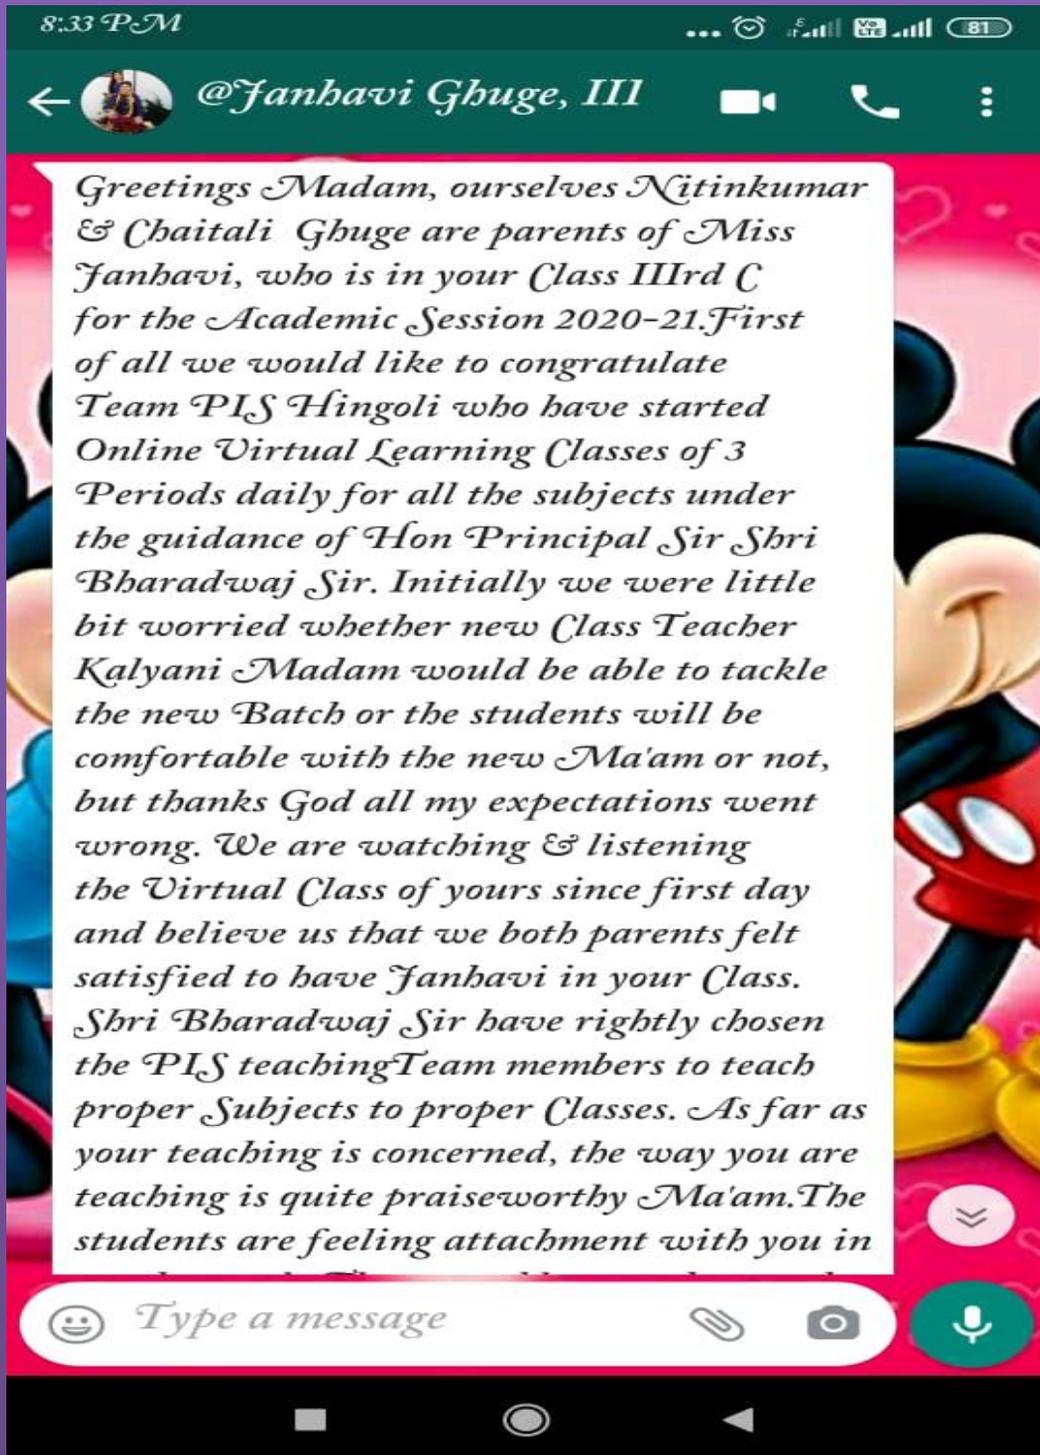

At last again very very thank you to P.T.S, Principal sir & also all teachers.

It's fabulous concept as first time we have experienced virtual classes for our children's education. Hats off to the team work of Poddar International School. We are getting such facility during this critical time of lockdown where we have lost hopes for the further coaching of our children. You have arranged for them the online teaching classes which are very helpful to them in studying. Also it keeps them engaged in the house and their link of studies doesn't get distracted. Apart from this there are some improvements needs to make in the virtual classes

Respt,

Principal & Sir & mam,

As Govt. declared lockdown & school cancelled the exams. After that as a parent I was worried about result of my ward.

Meanwhile the sms was sent by miss Ruby mam " school has decided to declare the result by online & you have to download it from Between us app. We are following the instructions but in vein. Then miss Ruby mam told us that how to download the mark memo (Result) in the guidance of miss Ruby mam we download the result.

At the same time she create a whatsapp group of II<sup>nd</sup> std & give more information.

Now my ward 'Atharv' is in II<sup>nd</sup> std. the class Teacher of this class miss shital Deshpande mam give further instructions about "Virtual class" it is very interesting concept, idea taken by PIS Team.

If virtual class is not started by PIS team then every students missed their studies & a wonderful method of teaching. Atharv is enjoying it.

Teachers are really taking more efforts to give their best to the students. Till today all concepts & topics taught by Respected Teachers are very easy to understand it to students by Virtual class

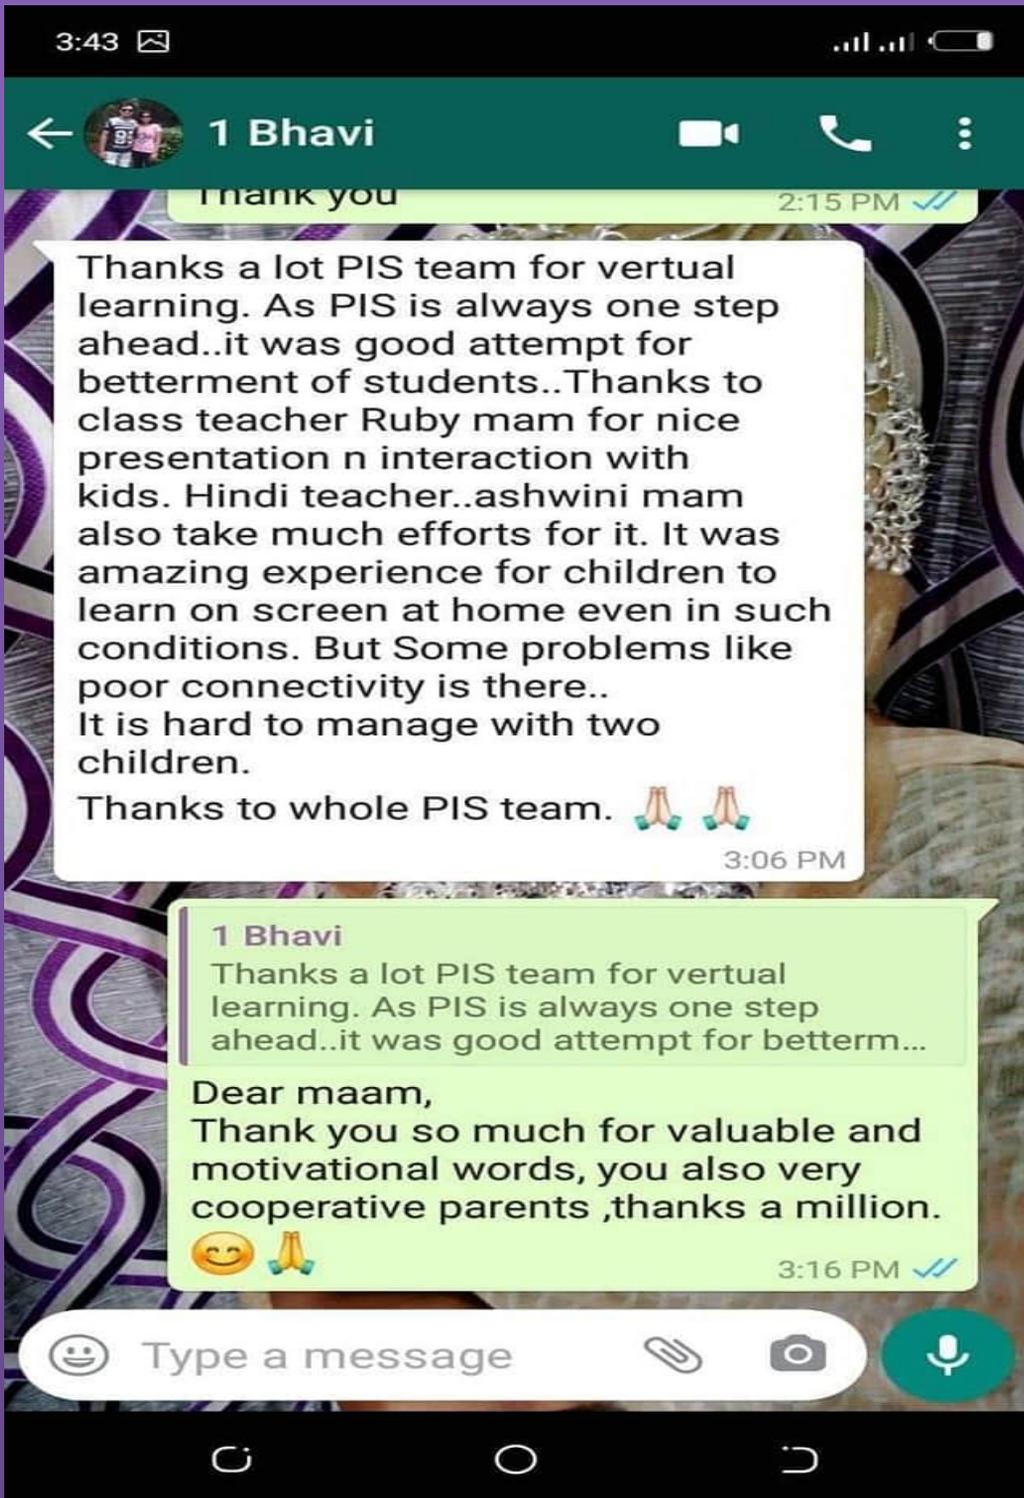

PPT, ~~pdf~~ slide, PDF Documents prepared by teachers are excellent & it is very useful to understand for students. Thanks to PIS Team & Hon. Principal Sir.

Always Regards

Miss I really appreciate the efforts which you are taking. I hearty congratulations for this. My son is newly admitted in the school. There are more than 40 students in the class. So I think you can ask the questions everyone and not only for few students. It's my humble request you should give strict warning to parents not to speak in between. A lot of chaos used to create due to that. Once again I congratulate for your efforts.

Good afternoon teachers .

I am very surprised and amazed by the hardwork ,dedication and enthusiasm you all put in to conduct this online virtual class . And to control and handle this huge group of student and make them understand things and learn via the electrical screens can be a pretty tough and hard task in general . Ingoring the current pandemaic of the COVID-19 i am super thankful for your participation in teaching our children , and making sure all there concepts theories and problems are getting solved and thereby securing the future of our kids . I have attended one or two classes of my kids and i know staff is doing a great job to keep co-ordination in the online session but some of them tend to create chaos . I whole heartedly thank each and very staff of PIS hingoli for their contribution and i also them you from behave of my kids  
THANKYOU!
