

Slowly I rise

1) Mountains

2) Physical features of the earth\Landforms

3) Plateaus

4) Plains

5) Desert

- **Extreme heat and scanty rainfall, plants grown-cactus, desert animals-camels, snakes, lizards etc. Ex. thar desert in india hot desert, antarctica-cold desert.**
- **High land with a flat top-tableland, storehouse of minerals. Ex. Deccan plateau in india.**
- **tip-peak, covered with snow. trees such as pine, fir etc grow in lower regions, Animals such as yak, sheep, Ex. Mt. Everest-highest mountain in the world.**
- **Low lying flat land, deep and fertile soil, densely populated areas such as Delhi, kolkata etc are located in such plains.**
