

Principal's Message

Dear Students,
Sometimes you may feel that you are not progressing inspite of trying many things. You may think of giving up or judging your capabilities. The view you adopt for yourself will profoundly affect the life you lead. You imagine less, less is what you deserve. The point here is love what you do and don't stop till you achieve it. There is no one around you who only experienced success. Your success depends on your sincere efforts. Have a positive viewpoint of your personality. Let your internal monologue be fine tuned by you. Let your thoughts be in action and let that action be your celebration of success.

Grade X students had their farewell function. The whole school's best wishes are with them. May God bless them all.

This newsletter has the success story of you and the school celebrations. Please have a happy reading.
