

The Tapestry of Togetherness

The City

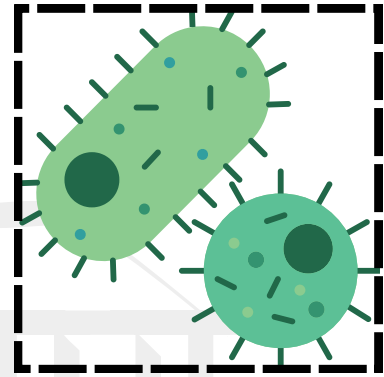

Pune recorded only about 80.8 mm of rain in August, compared with a normal 145.5 mm — a 44.5% deficit. Interestingly, the city's dams remained close to full.

Pune saw important progress in its Metro expansion in August 2026. Work on the 4.41-km PCMC–Nigdi extension picked up pace, with track-laying and electrical work beginning.

A four-member student team from Pune and Mumbai secured a prestigious Meritorious Award at the International Mathematical Modelling Challenge (IM²C) 2026

The Pune Municipal Corporation (PMC) reported a sharp rise in dengue and chikungunya cases, exposing a major health staff shortage.

The Maharashtra Urja Expo opened in Pimpri-Chinchwad on 26 August, bringing together more than 100 exhibitors and speakers to showcase developments in clean energy and the state's energy transition.

The Nation

In response to the devastating flash floods in Nepal, the Government of India has dispatched 2.5 tonnes of emergency relief materials and humanitarian aid to support ongoing disaster response and recovery operations in the affected regions.

Driven by lower crop yields and high festive demand, retail sugar prices in India have risen to ₹55–₹65 per kg. To stabilize the market, the government has imposed strict stock limits on dealers and authorized the import of 1 million tonnes of sugar.

Prime Minister Narendra Modi hoisted the national flag at the historic Red Fort in New Delhi and addressed the nation, paying tribute to the freedom fighters who fought for the country's independence.

India secured a 1-0 Test series victory against Sri Lanka, with top-order batter Devdutt Padikkal named Player of the Series. Padikkal anchored the batting lineup, anchoring India's success by scoring 328 runs, including two critical centuries.

The World

1. A Human-Made Crater on the Moon — 5 August 2026

A discarded SpaceX Falcon 9 upper stage struck the Moon on August 5, creating a measurable crater.

It was an unusual reminder that humanity now leaves traces not only on Earth, but on other worlds.

3. Record-Warm Oceans — August 2026

Global oceans reached an average surface temperature of about 21.1°C , a record high for the observational record.

Scientists linked the extraordinary warmth to long-term human-caused warming alongside a rapidly strengthening El Niño.

5. The 2026 Commonwealth Games — 23 July–2 August

The Commonwealth Games in Glasgow concluded on 2 August, bringing athletes from across the Commonwealth together in a major international sporting gathering.

Competition brought together different nations, languages and cultures through a shared love of sport.

2. The Great Solar Eclipse — 12 August 2026

A total solar eclipse crossed Greenland, Iceland and northern Spain, marking Europe's first total solar eclipse since 1999.

For a few extraordinary minutes, daylight gave way to darkness as the Moon completely obscured the Sun.

4. The Deep Partial Lunar Eclipse — 27–28 August 2026

A remarkably deep partial lunar eclipse is occurring on August 27–28, with more than 96% of the Moon entering Earth's shadow.

6. The August Sky Alignment — 12 August 2026

On the same day as the solar eclipse, the sky offered an unusual combination of astronomical phenomena, including a pre-dawn planetary alignment.

It was one of those rare moments when separate celestial bodies could be observed as part of one larger pattern.

INTERVIEW WITH MS. SUTAPA PAL

A transcript of an interview with one of our primary teachers,

Ms. Sutapa Pal

What inspired you to become a teacher?

I think it would be my daughters. Since my childhood I had a dream to become a teacher. However, as fate turned out I ended up going in a different field. Teaching my daughters made me realise that I could do this as a profession.

If your students were to be described in three words, what would they be?

There are so many I could use for them. They're definitely curious. For three words, I would say naughty, unique in their own way, and simply lovely.

How do you keep up with the energy of first graders?

I sometimes make myself become like them. Every time they want to do something new one after the other. I engage them with videos, have them present themselves, encourage them to speak in class and perform various activities with them. It gets really tiring sometimes, but I love it nonetheless.

In what ways do you prepare the young ones for future, advanced learning?

They should learn and become perfect in their academics. First grade is the grade where the foundation for important concepts is laid. So I let them speak up for what they want. I make them practice, give them homework, regular recap and worksheets. There are total 8 revision worksheets in a year. 1 worksheet covers 2 topics. We continuously revise such that advanced questions are easy for them. I show them abstract things and ask them to decipher their meanings, so that their grasping power also increases.

GEN-Z AND THE FUTURE OF WORK

“Will Gen Z simply enter the workforce of the future, or will they redefine what work itself means?”

Generation Z is stepping into a world of work that looks very different from what previous generations experienced. Born into an age of smartphones, social media, and rapid technological growth, Gen Z has always been surrounded by change. For them, a career is not just about earning a living; it is about finding purpose, creating an impact, and building a life that balances professional success with personal happiness.

One of the greatest strengths Gen Z brings to the workplace is their natural connection with technology. Growing up in a digital world has made them comfortable with new tools, online collaboration, and emerging innovations like artificial intelligence. They are quick learners who are not afraid to experiment, adapt, and find creative solutions to problems. In a world where industries are constantly evolving, this ability to embrace change is becoming more important than ever.

But Gen Z is also changing the way we think about work itself. For many young people, success is not measured only by a high salary or a prestigious job title. They want their work to have meaning. They are drawn towards organizations that care about values such as sustainability, equality. They want to be part of something bigger than themselves and contribute to causes that can create a positive difference in society.

The traditional workplace is also being reimaged because of Gen Z's expectations. Flexible schedules, remote work, and a focus on creativity and productivity are becoming more common. This generation believes that great ideas can come from anywhere and that a healthy work-life balance helps people perform better. They are encouraging workplaces to become more understanding, inclusive, and focused on the well-being of employees.

Gen Z is not just entering the workforce—they are helping redefine it. Their ideas, values, and innovative mindset are pushing workplaces towards a future that is more flexible, inclusive, and creative. As they become the leaders of tomorrow, they have the opportunity to build a world of work where success is not only about what we achieve, but also about the positive impact we create.

INDEPENDENCE DAY

15th August is not just a date on the calendar; it is a trademark of courage, sacrifice, and selflessness. It is a day when we come together to honor, recognize, and pay tribute to the countless patriots who gave their lives and made immense sacrifices to help India's independence.

Independence Day reminds us of the privilege and the responsibility of being an Indian citizen – to be part of a country that is based on principles of respect, equality and unity among its people. It is a celebration of a country that embraces different religions, cultures, castes and communities while ensuring that all are treated with equal respect and opportunity.

Independence cannot be attributed to a single person or individual nor can it be termed as the result of a single day. It was the outcome of a fight that lasted more than 300 years and was based on the courage, selflessness and tenacity of millions of Indians who came together for a common goal of liberation.

A DAY IN THE LIFE OF BHAGAT SINGH

Imagine being 20 and having bigger problems than exams, assignments, and attendance—you're thinking about how to free an entire country. That was Bhagat Singh. His days were spent reading newspapers and books, writing, discussing politics with friends, and secretly planning with fellow revolutionaries. He was curious, outspoken, and constantly questioned British rule and unfairness in society. Basically, while we're stuck in group chats complaining about school, he was having serious conversations about changing India.

The craziest part? He was only 23 when he was executed in 1931. He was young, but he didn't let his age stop him from standing up for what he believed in. His life shows us that being young doesn't mean being powerless—you can still question, speak up, and make a difference. Now that's some serious main-character energy.

SPECIAL ASSEMBLY

Topic – Unity in Diversity: The Soul of India

“India teaches us that strength is not in being the same, but in standing together despite our differences”

Students of grades 7th A and 7th B collaborated to perform this delightful assembly that showcased diversity amongst Indians in its purest form. The assembly consisted of various acts, including a skit, a dance, and a musical performance. Students practiced endlessly for four days, making tremendous efforts to create a blend of diversity, creativity, and culture. Through the preparation, the students themselves realised the importance of unity. The two classes had to work together, and overcome their differences. Kudos to Ms. Adlin Priya and Ms. Sudha Mishra for coordinating this splendid assembly.

INDEPENDENCE DAY CELEBRATION

In the Independence Day celebration, students from classes 5 and 6 took part and showcased their devotion for their country. Later that day flag hoisting was performed by Principal Ma'am, accompanied by the head boy and head girl. Our students presented an inspiring skit, followed by an enthusiastic dance performance. They beautifully conveyed a message by their confident speeches and performances.

RAKSHA BANDHAN SPECIAL ASSEMBLY

Students of grade 6A and 6B put up a beautiful assembly on the occasion of Raksha bandhan. However, this assembly was something beyond simply tying a thread to our loved ones. It was also about protecting and nurturing Mother Earth. This assembly was prepared under the guidance of their respective class teachers, Ms.Mubina ma'am and Ms.Nalini ma'am.

FRANK ANTHONY MEMORIAL DEBATE

Our school recently hosted the Frank Anthony Memorial all India debate competition for Category I, 11th and 12th on 27th August, 2026. Each speaker expressed their unique thoughts and perspective.

4 schools participated in the competition and showed their debating skills. The motion was set as 'Carbon emission taxing should be made mandatory globally'. 3 judges were invited to the school. The winners were as follows:

Best Team: Bishop's Coe-Ed, Kalyani Nagar

1st Runner Up: Bishop's Coe-Ed, Undri

Best Speaker: Atharva Sinha

1st Runner Up: Nitya Pillai

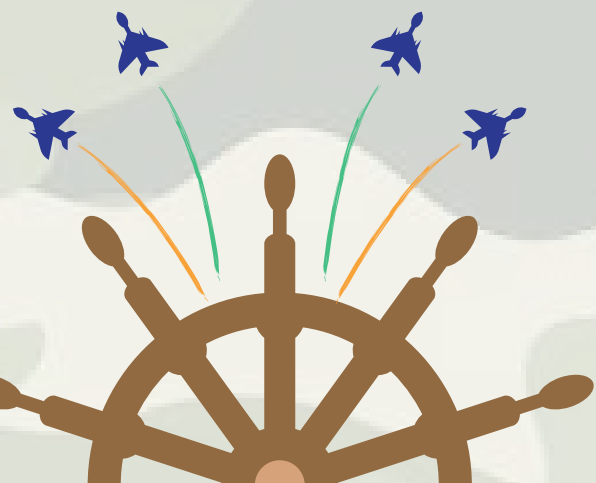

CAREER COUNSELLING SESSION WITH: COLONEL SAMEER KULKARNI

On August 25, 2026 our students got the ultimate privilege to meet and have an interactive career counselling session with Mr. Sameer Kulkarni. He gave the students on Grade 9 and 10 a beautiful insight on the life in the defense sectors.

He motivated the students to join the armed forces.

He elaborated on the procedures involved in joining the NDA (National Defence Academy).

Voices — & VERSES

These Red Strings

If all of humanity were to be sewn into a fabric,
Can you imagine what it would look like?

How it would feel?

What its texture would be like?

I think that it would be red,
Deep crimson with a velvet finish

Red as in the love that we share,
Red as in the passion with which we dream;

Red as in the drops that we bleed;

Grinning ear to ear, it's the red that flushes to our cheeks

All we are is red flesh

This red flesh wrapped with bone and skin

If we're all built the same,

And all put on the same Earth,

Why should it matter what clothes you wear?

Why should it matter what food you eat?

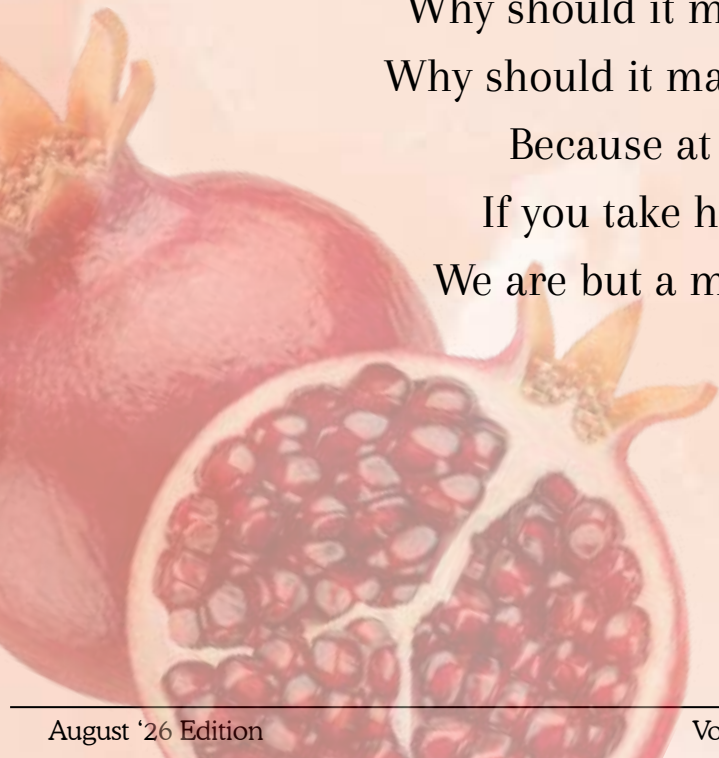

Why should it matter what colour you are?

Because at the end of the day,

If you take humanity as tapestry,

We are but a mere red piece of string

THE THREAD WE WOVE

A bond of thread,
the love should spread,
the story was untold,
like precious gold.

Always stayed hand in hand,
across the sea, across the land
the memories last,
as it walks past

No one stands alone
because love always has a tone
The same laughter,
the same joy,

The story you told was
never meant to be strong,
We need some space
when things feel wrong.
The thread we weave
inside our hearts
Takes up a space that never parts.

SOLDIERS' SACRIFICE

We the soldiers protect you
Hiding in bushes without mittens
attacking those who kill the citizens

Soon we became martyrs
remembered by all
respected by bullets shot tall

Arise children! Remembering us
protect your land like us

No matter whether you live or die
Life is a coin working on both sides

From different religion, caste, and
race

we all come with the same spirit
Spirit to protect, spirit to die

We are the ones who fight without
sleep
to make sure our citizens can sleep

Books & ARTISTRY

YOUNG AUTHORS

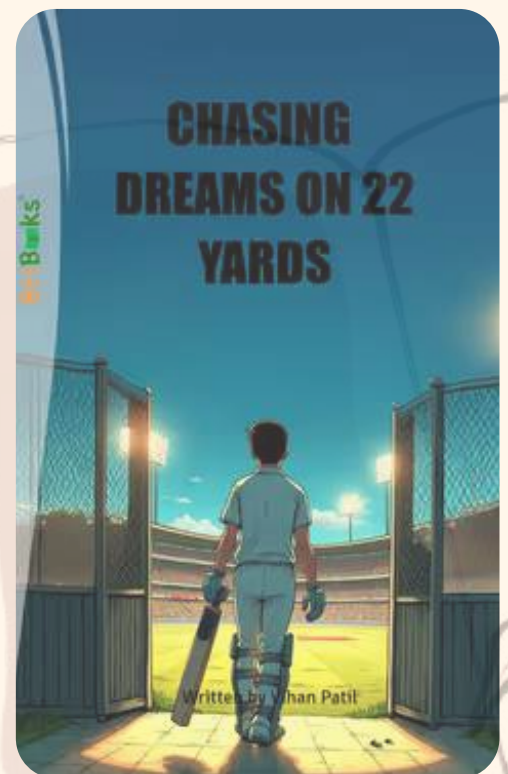

The Cost Of Ego by Rudra Zuluk Praise for the Book

“The Cost of Ego an impressive narrative that skillfully merges Indian mythology with profound life lessons on pride, friendship, and destiny. Is highly recommended for its exploration of humility and the long-term consequences of human ego”.

“I enjoyed this book because it is easy to read and has a meaningful message. I recommend it to children aged 10–14 years”

"Chasing Dreams on 22 Yards" is an inspiring book written by young cricket enthusiast Vihaan Patil and published via BriBooks. The book captures the deep passion, hard work, and technical elements of cricket from the perspective of an active student player. Across structured chapters—covering the origins of the sport, the physical dimensions of the ground, and the essential rules—Patil breaks down cricket into simple, relatable terms. It serves as a perfect read for young aspiring athletes who share the dream of mastering the 66-foot pitch.

CRYPTIC CROSSWORD

A cryptic crossword contains 2 parts: the wordplay and the definition.

The wordplay has two parts: the indicator and the fodder

The part of the sentence in red is the fodder-it tells you what to do with the indicator

The part of the sentence in yellow is the indicator- The words that tell you what to do with the fodder

The part of the sentence in blue is the definition-a direct hint at the answer.

For example: **Monkey with**

"Monkey with" means to mess around with or mix up. This tells you that the letters need to be scrambled. Find 7 letters next to each other, mix them up, and rearrange them to form a 7-letter word that matches the meaning given in the clue. In short, find the letters, scramble them, and find the word!

no cigar

'No cigar' is our fodder – we'll need to use those letters somehow to arrive at our answer. Hint: this clue uses an anagram technique – see what word you can make if you mix up these letters.

as nature intended (7)

The definition is 'as nature intended' – our answer will correspond with this definition.

When you rearrange 7 letters in 'no cigar' that forms a word the means 'as nature intended'- you get the word ORGANIC and that's what the answer is!

The numbers at the end indicate the length of the answer.

"Mix the rat up to find something you put on your wall." (3)

Clue: "Mix" tells us to rearrange RAT

Definition: Something you put on your wall
