FROM THE PRINCIPAL'S DESK

At the outset, I express my gratitude to the parents who have put their faith in us to educate their children. This brings with it tremendous responsibilities and I assure you that we are doing our best to live up to your trust in us. Today, the role of a school is not only to pursue academic excellence but also to motivate and empower the students to be lifelong learners, critical thinkers, and productive members of an ever changing global society. Converting every individual into a self-reliant and independent citizen, our school provides an amalgam of scholastic and co-scholastic activities

Ranjana Jha
Principal, Podar International School - Jamnagar

PJK

EARLY YEARS FOUNDATION STAGE

A curriculum framework from the United Kingdom that helps enhance and support 7 skills in young children.

PODAR PREP ADVANTAGE

The overall aim of early years education is to attain optimal outcomes in the domains of: physical and motor development, cognitive development, socio-emotional-ethical development, cultural/artistic development, and the development of communication and early language, literacy, and numeracy.

At Podar Prep we achieve this by combining the NEP 2020 with development and learning of

EYFS (UK) and life skills learning of EYLF (Australia).

PJK

KIDUCATION CURRICULUM AT PODAR PREP IS S3

S.T.R.E.A.M

The S.T.R.E.A.M curriculum allows children to learn vital skills such as problem solving, critical thinking, collaboration and innovation along with **essential** technology skills sets.

SPIRAL

Jerome Bruner's **spiral** approach in the curriculum means to start from basic and then go into details, revisiting pre learnt ideas and expanding on them. In this way we would ensure connection and continuity as children would learn one concept several times with increasing complexity.

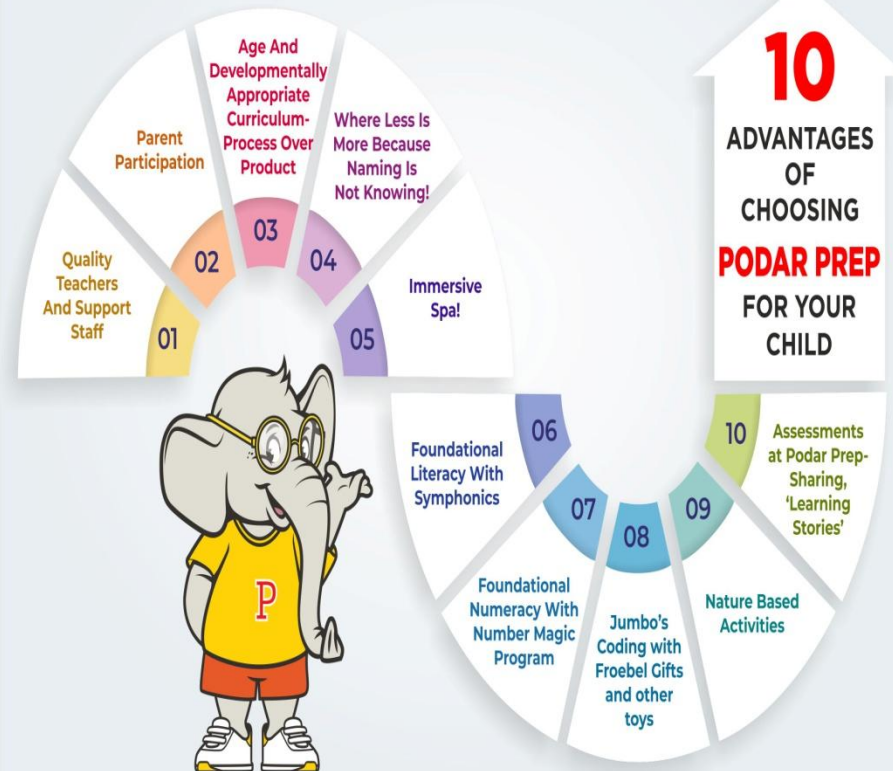

STORIES

A story based curriculum starts with a story and then explores the related concepts in the story. This helps children to learn to move from known to unknown, simple to complex, and concrete to abstract.
