

WISE – Wondrous Intellectual Scientific Expedition

Objective-- To create awareness and curiosity among students for science subject. WISE offers students an opportunity to develop a feeling of confidence and competence and foster a spirit of scientific inquiry. Students do important research and discover previously known facts. As students participate in a formal competition, they also practice public speaking and learn how to explain and defend their work in front of a panel of judges

WISE –Final event on 20th Jan 2017

All the science and UOI teachers are responsible for their respective grades.

Teachers will prepare grade wise list of students (group or individual)along with topic name.(maximum 3 students in a group).

The child can make a model, chart based on any topic from their sci textbook or something innovative specifically only for (Grade 1&2).

They can display pictures and can given written information on the chart.

They can perform experiments; students need to use their own creativity to perform experiments. Students can make projects in groups or individually.

Students are supposed to present it in a preliminary round that will be conducted on **11th Jan for Grade 1 to 4. 12th Jan for Grade 5 to 9,(dates will change year to year)**.So students can bring the projects on the given dates for inputs. Respective teachers will discuss the same in class.
