Subject: "Vedic Math" SKILL Program for Grades IV to VIII

Dear Parents,

Greetings from PIS Pathardi!

We are delighted to introduce "VEDIC MATHS" skill Program, developed in collaboration with "AVAS " an approved Training Partner of NSDC Skill India. This initiative aims to help solve math problems faster and more accurately and can be used to calculate arithmetic, algebra, Trigonometry & coordinate geometry. students from **Grades IV to VIII**, enhancing their **pattern recognition ,logical reasoning ,analytical thinking**.

The program is a proven brain development tool that not only strengthens mathematical skills but also enhances cognitive functions, concentration, and problem-solving abilities. Integrating abacus training into the curriculum can offer students significant advantages, such as:

### **Salient Features of the "Vedic Math" Program:**

1. **Reducing Math Anxiety:** Builds confidence and eliminates the fear of numbers.
2. **Promotes Pattern Recognition:** Helps children identify patterns, simplifying problem-solving and enhancing logical thinking.
3. **Encourages Problem Breakdown:** Teaches breaking complex problems into simple steps, boosting analytical reasoning.
4. **Boosts Logical Reasoning:** Offers flexible methods, strengthening logical reasoning by encouraging diverse approaches.
5. **Fosters Analytical Thinking:** Trains the mind to assess and solve problems logically and efficiently.

### Program Levels:

In an academic year (2025-26), a child will complete two levels of Vedic Math.

The syllabus of Vedic Math is co-related with the CBSE curriculum and includes:

- Complementary Lifology sessions and certification from the University of Finland.
- Complementary Phonics workshops.

### Lecture Schedule:

- Every Saturday : 12:30 PM to 02:30 PM

### Fee Structure:

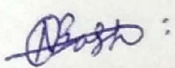

Sr No.	Component	Details
1	Duration	June To March
2	Total fees	Rs 3500 (annually => one time payment) Including 4 books + notebook + stationery

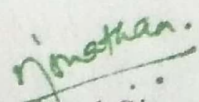

### Why Choose "Vedic Math"?

- A well-rounded program that caters to **individual learning needs**.
- Focus on **interactive learning** to make concepts easy and fun.
- We believe this program will help your child reach new heights in their academic journey.

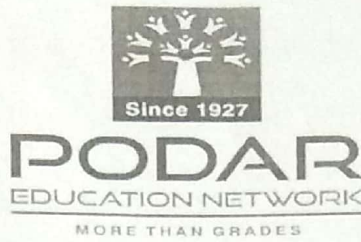

### Note:

1. If a parent wishes to enroll their child mid-year, enrollment is possible at any time during the academic year. However, the full one-time payment of Rs. 3500 will apply at the time of enrollment.
2. Bus transport facility is not available for this program.

Subject: "ABACUS" SKILL Program for Grades I to III

Dear Parents,

Greetings from PIS Pathardi!

We are delighted to introduce the "ABACUS" Skill Program, developed in collaboration with "AVAS", an approved Training Partner of NSDC Skill India.

The Abacus is a proven brain development tool that not only strengthens mathematical skills but also enhances cognitive functions, concentration, and problem-solving abilities. Integrating Abacus training into the curriculum offers students from **Grades I to III** significant advantages, including enhanced concentration, 360° brain development, logical reasoning, and analytical thinking.

### **Salient Features of the "ABACUS" Program:**

1. **Enhancing Concentration & Memory:**– Improves focus and retention power.
2. **360° Brain Development:**– Stimulates both hemispheres of the brain, enhancing overall cognitive growth.
3. **Developing Logical & Analytical Thinking:**– Encourages problem-solving skills from an early age.
4. **Reducing Math Anxiety:**– Builds confidence and eliminates the fear of numbers.
5. **Strengthening Overall Brain Function:**– Sharpens mental agility and improves learning abilities.

### Program Levels:

In an academic year (2025-26) a child will complete two levels of ABACUS.

- Complementary Lifology sessions and certification from university of Finland.
- Complementary Phonics workshops.

### Lecture Schedule:

- Every Saturday : 12:30 PM to 02:30 PM

### Fee Structure:
